

Overview of Meeting with Supervisor Sophie Maxwell, November, 10, 2004.

Beth gave an overview of the fact-finding work the committee has been doing.

Karen reviewed the main points of our recommendations and we discussed next steps.

Supervisor Maxwell felt that regardless of whether SFHA resources were abundant or scarce they should know how to manage their resources. She expressed that she is more than willing to submit the recommendations to SFHA and schedule an initial hearing where SFHA can present their response to our recommendations. Then a second hearing date will be scheduled at which they will present their first progress report.

Outcomes:

1. The Environmental Committee will mail the recommendations with a cover letter to the SFHA requesting they formulate their response to be presented at a first hearing (likely to be held in January)
2. Supervisor Maxwell will be reviewing our recommendations more closely
3. Supervisor Maxwell will send a follow-up letter to SFHA (about 2 weeks later)
4. Environmental Committee will redo the recommendations chart to facilitate SFHA response

Supervisor Maxwell also advised that a possible way to get tenant feedback on our recommendations would be to contact Captain Bruce who holds community meetings for Portrero Hill and Bayview SFHA developments. Anjali will follow-up.
