## 2005 Member Satisfaction Survey

*"I feel safer when my children go out on a field trip or when they play soccer and volleyball.  
My son was not doing well in school, and as soon as he got his glasses his grades have improved!"*

*- HK Member Parent*

## Executive Summary

Healthy Kids & Young Adults is a comprehensive health care insurance program, offering medical, dental, and vision care to the children of low to middle-income families and young adults residing in San Francisco. Administered by San Francisco Health Plan (SFHP), Healthy Kids & Young Adults fills a gap for families whose income exceeds the limit for other government or state-funded programs or for those who are undocumented. SFHP is committed to assist Healthy Kids & Young Adults members and their parents to ensure they can access the health services they need.

This report summarizes the findings of the third annual Healthy Kids & Young Adults Member Satisfaction Survey. We use this survey as a tool to assess the level of satisfaction with the Healthy Kids & Young Adults program and to identify areas of services in need of improvement.

**Are Healthy Kids & Young Adults members and parents happy with the program? The answer is an overwhelming “Yes!”**

We asked Healthy Kids & Young Adults parents if their child had accessed four types of services, and if so, we asked them to tell us with a simple “Yes” or “No” if they were happy with the services received. The following chart summarizes their answers in four critical areas of service addressed in this survey:

- Medical services: San Francisco Health Plan doctor or clinic
- Dental Services: Delta Dental Dentist
- Vision Services: VSP Optometrist
- Customer Service: San Francisco Health Plan Member Services and Program Enrollment

## Reported Utilization of Services

| REPORTED UTILIZATION OF SERVICE | %   |
|---------------------------------|-----|
| Doctor                          | 84% |
| Dentist                         | 66% |
| Eye Doctor                      | 40% |
| Customer Service                | 83% |

## Survey Return Rate

We surveyed 3,534 Healthy Kids & Young Adults households comprised of 2,096 new members and 1,438 re-enrolling members. The survey was mailed in April 2005, the same month as last year. The targeted members in last year's survey were new enrollees who became members within the last 12 months of that year. This year's survey was sent to all HKYA members, resulting in a 180% increase in the number of members receiving the survey as compared with last year. **The number of returned surveys was excellent with a 30% response rate.**

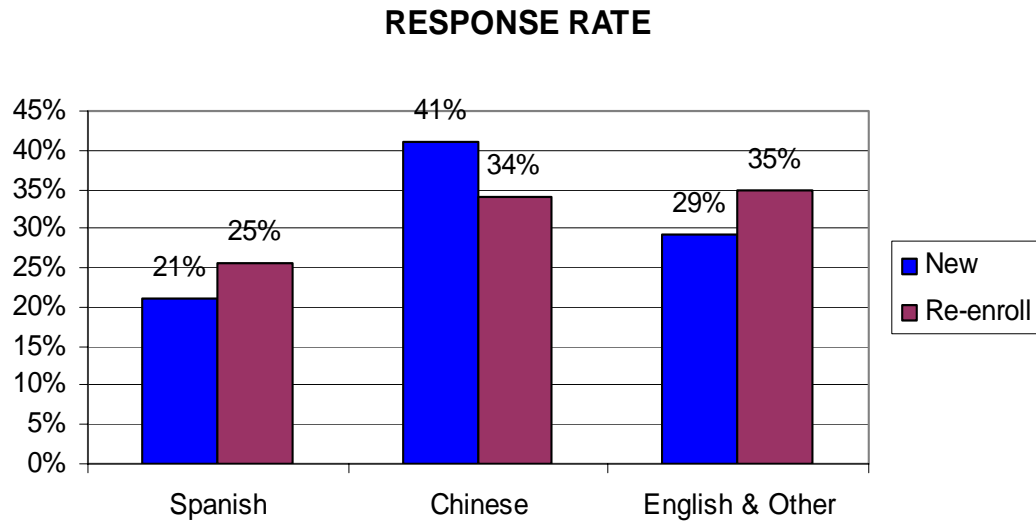

The survey was translated into Spanish and Chinese, our two largest language groups. We mailed English surveys to households who speak other languages besides Chinese or Spanish.

To expedite the return time, two movie tickets were offered as an incentive to members who returned their survey within two weeks. In the last couple of years, we did not provide an incentive and in and it took us six weeks to collect enough surveys to reach a statistically valid return rate. While we reached our goal to increase the turnaround time, the overall response rate decreased 5% from last year. This may be attributed to an adverse effect of the incentive which gave an expiration date for the incentive and may have dis-incentivized members from returning the survey if they missed that short two-week deadline.

We received a total of 1,055 responses, yielding a 30% overall response rate. Compared with last year, the number of members participating in this survey increased 140%, from 440 to 1,055. Below are the return rates of different language groups:

| LANGUAGE             | SENT        |             |             | RESPONSE   |            |            |            |
|----------------------|-------------|-------------|-------------|------------|------------|------------|------------|
|                      | SURVEYS     |             | %           | SURVEYS    |            |            |            |
|                      | New         | Re-enroll   |             |            | New        | %          | Re-enroll  |
| Spanish              | 865         | 816         | 48%         | 182        | 21%        | 208        | 25%        |
| Chinese              | 770         | 416         | 34%         | 317        | 41%        | 141        | 34%        |
| English/Other        | 461         | 206         | 19%         | 135        | 29%        | 72         | 35%        |
| <b>ALL LANGUAGES</b> | <b>2096</b> | <b>1438</b> | <b>100%</b> | <b>634</b> | <b>30%</b> | <b>421</b> | <b>29%</b> |

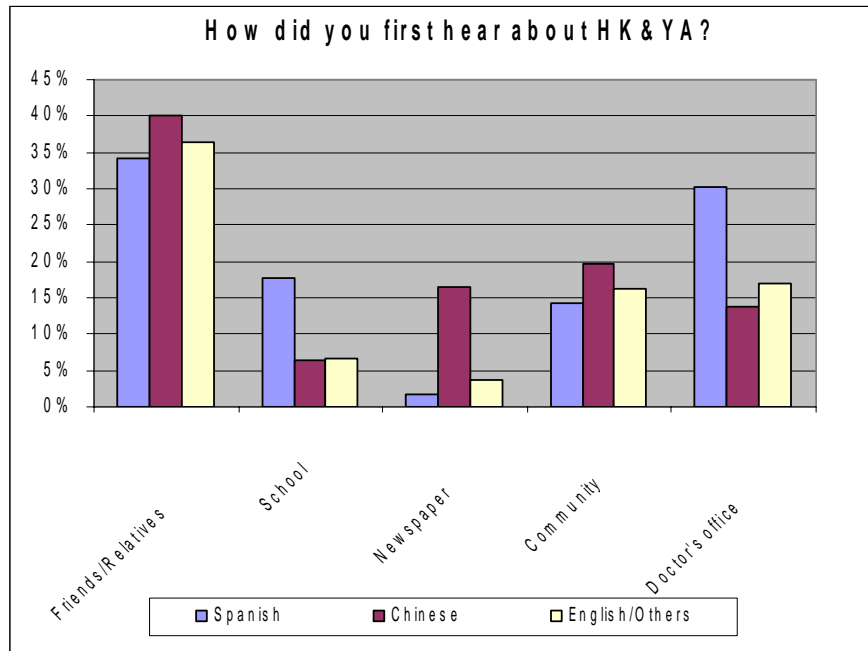

The following graph depicts the return rate per language. Re-enroll members had a higher response than new members in each language group except Chinese speaking members. New Chinese members had the highest response rate.

## Detailed Results

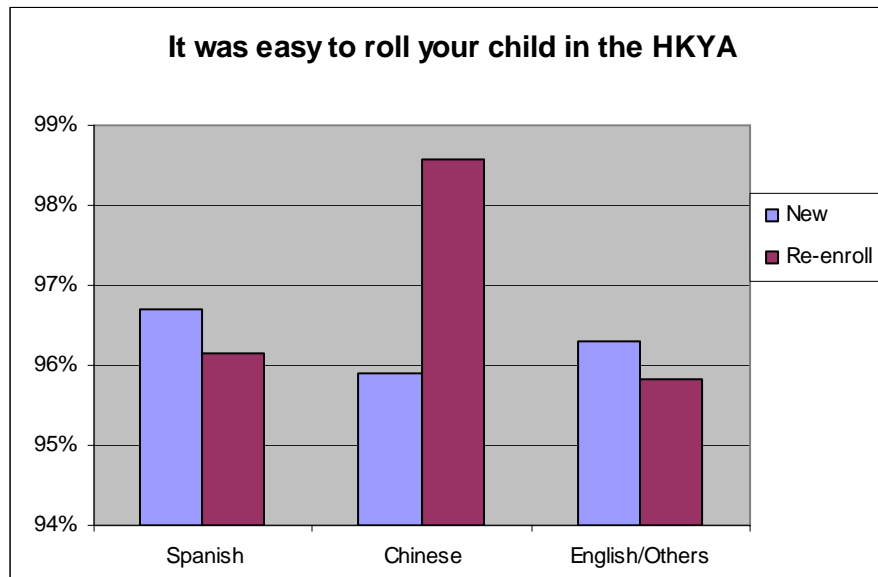

### How did you hear about the Healthy Kids & Young Adults program?

As in previous years, word of mouth is the most common way our respondents learned about the Healthy Kids & Young Adults program, with the doctor's office or the clinic as the second most common source. Last year, school was the third most common source for members learning about the Healthy Kids & Young Adults program. However, this year community organizations were the third highest source and school came in fourth. The results also indicate that our clinic and school outreach and enrollment activities are most effective with the Hispanic population, while our Chinese members hear about us through newspaper advertisements and community organizations. In addition, NEMS continues to play a critical role in helping Chinese-speaking members enroll.

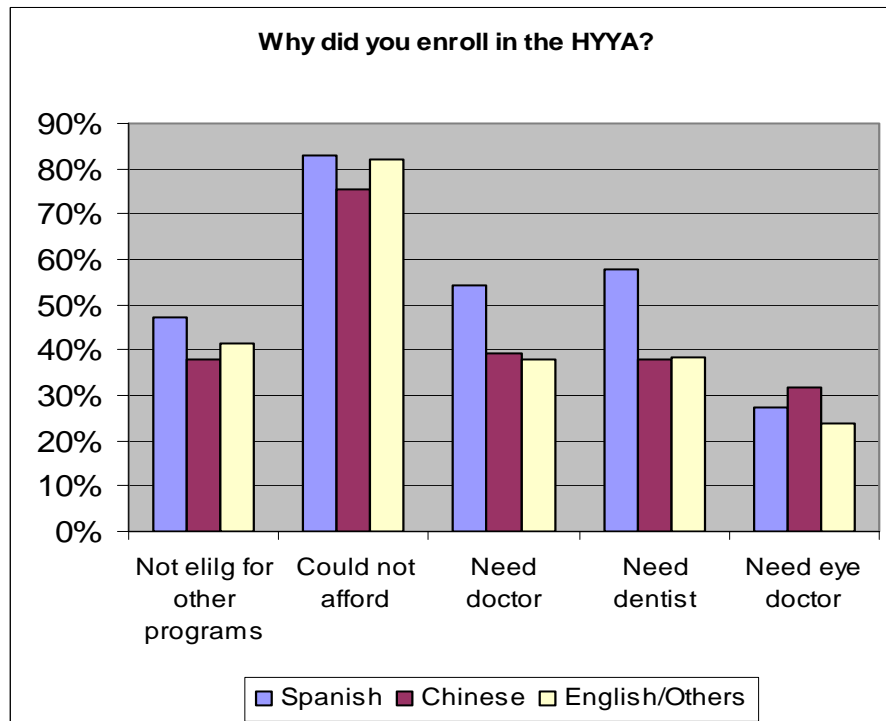

## Was it easy to enroll in the Healthy Kids & Young Adults program?

Regardless of language, the vast majority of our respondents stated that it was easy to enroll in the Healthy Kids & Young Adults program. Last year, we sent the survey only to new members.

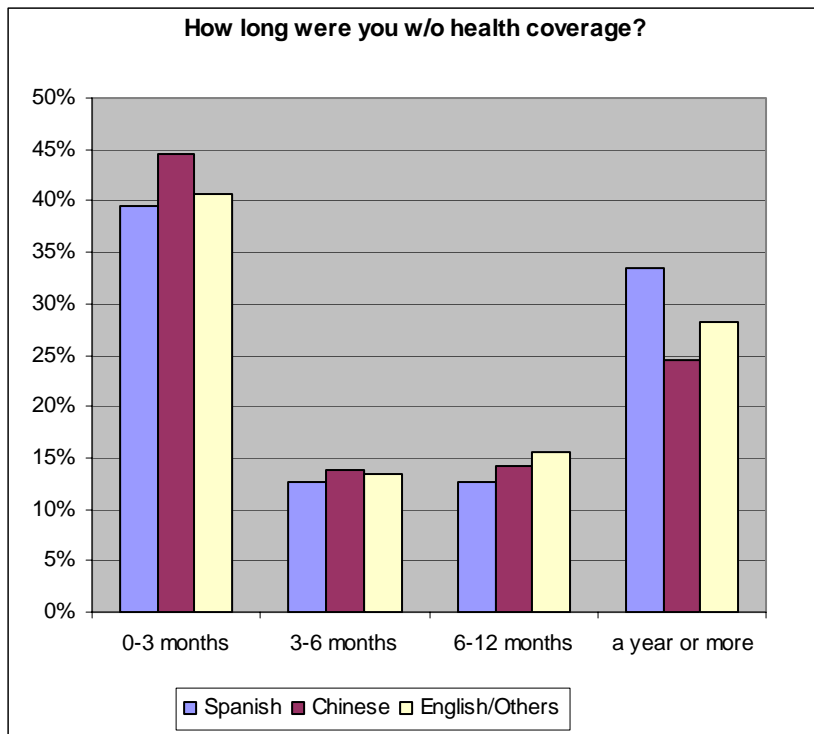

## Why did you enroll in the Healthy Kids & Young Adults program?

The high cost of medical services continues to be the strongest incentive for parents to enroll their children in the Healthy Kids & Young Adults program.

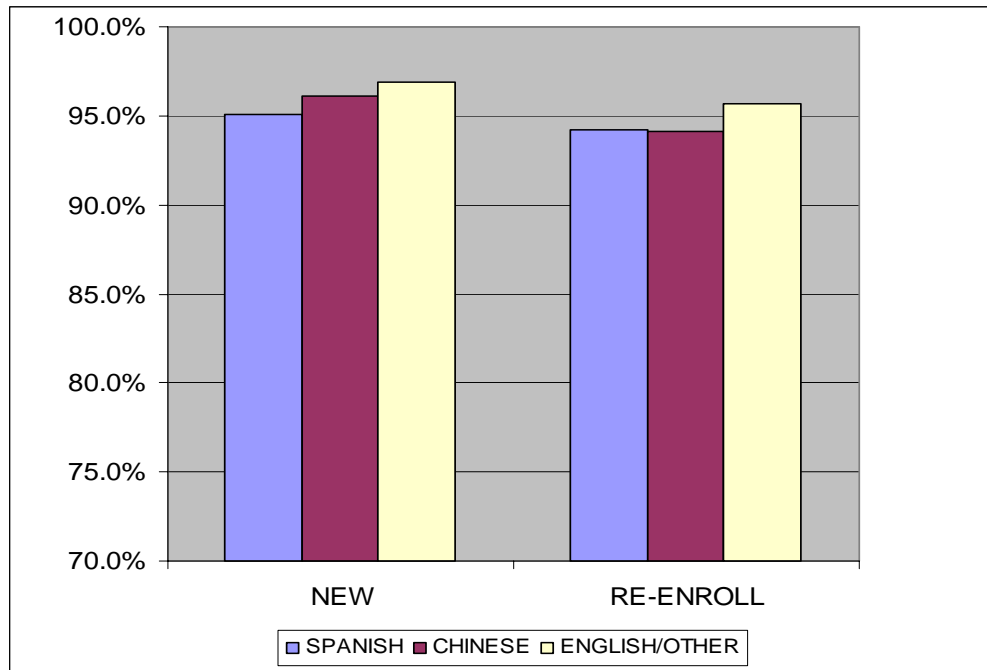

## How long were you or your child without health coverage before joining Healthy Kids & Young Adults?

Similar to last year, most respondents seem to have gone without insurance for two distinct time periods, under three months and over 12 months. Compared with last year, the number of Spanish speaking members who did not have insurance from 0-3 months decreased 7% while the number of Chinese speaking members in this category increased 7%. There were a large percentage of Spanish speaking members who did not have insurance over 12 months last year and that percentage decreased 8% this year.

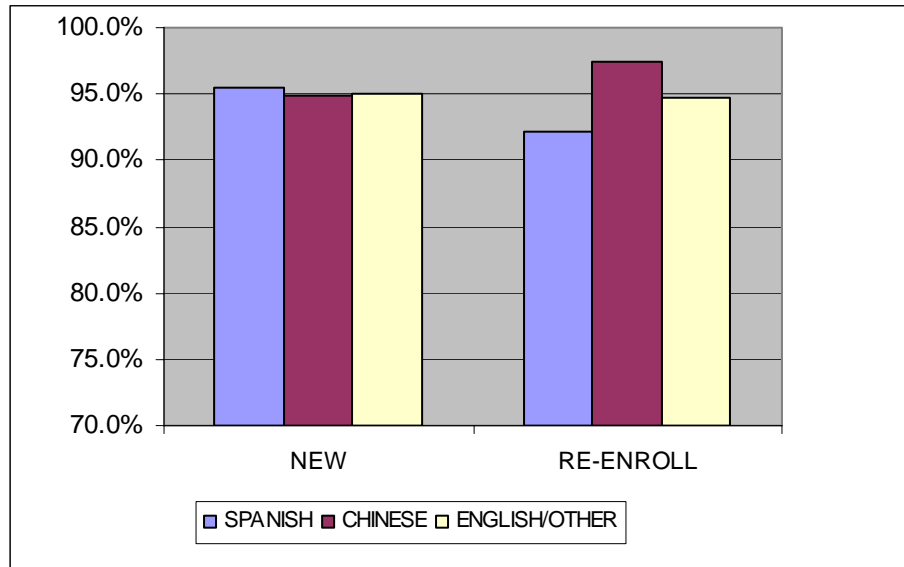

## If you or your child visited a doctor or clinic since joining the Healthy Kids & Young Adults program, was the service satisfactory?

**95% of respondents who accessed medical services indicated that they were happy with the services provided by their doctor or clinic.** We focus, of course, on the rare occasions when people are unhappy. According to members' comments on the survey, the reasons for dissatisfaction are: long wait time during the doctor appointments, long wait time to get doctor appointments, and poor customer service from doctors or office staff.

## If you or your child visited a dentist since joining Healthy Kids & Young Adults, was the service satisfactory?

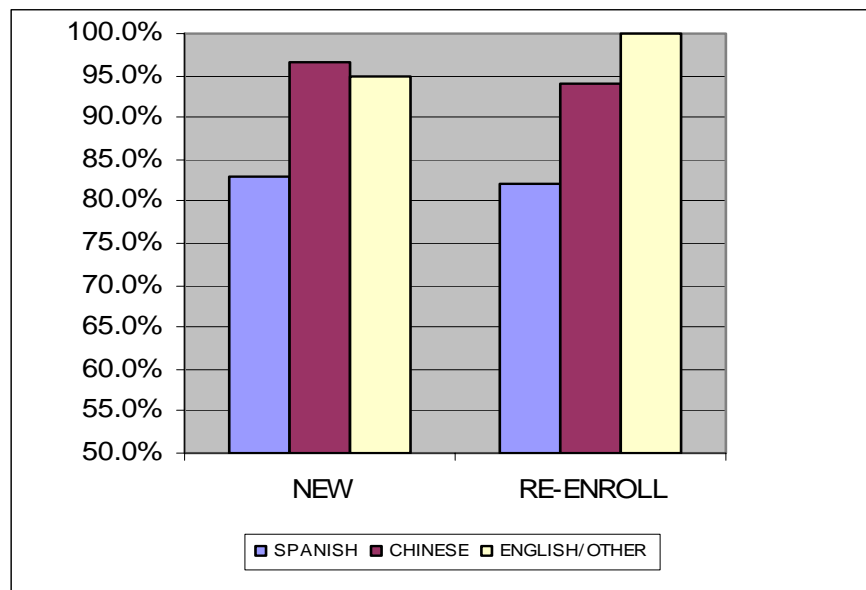

Again, members are very happy. The results exceeded 92% percent for every language group and for new and renewing members. According to comments, the rare dissatisfaction reasons are as follows: long wait time to get appointments to see dentists, quality of care, and issues related to benefits.

## If you or your child visited an eye doctor for vision services since joining Healthy Kids & Young Adults, was the service satisfactory?

The overall satisfaction rate for vision services was high, increasing 1% as compared with last year. However, Spanish speaking members had a significant decrease from last year's 92% to this year's 83%. The satisfaction rates for other language groups increased: English/Other by 12% and Chinese by 5%. Several Spanish-speaking members indicated that they were not happy with their optometrist; we are following up with them to determine why or to identify any trends.

According to member comments, the reasons for dissatisfaction are as follows: cannot contact their doctors; take too long to get an appointment, and out-of-pocket payments.

## Does your doctor or clinic speak your language?

A very large percentage of Spanish and Chinese-speaking members said yes – 97% and 98% respectively. The scores for the responses to the English surveys need interpretation.

We send English surveys to Healthy Kids & Young Adults households that do not have Spanish or Chinese listed as their language in our database. Among these households, a small number of members speak other languages. We assume that when they respond to the survey, they are indicating whether the doctor/clinic speaks their primary, non-English, language. We may modify this question for the English survey next year to make the question clearer.

|               | Doctor Speaks My Language |    |           |    | Doctor Does Not Speak My Language |    |           |    | Yes & No |   |           |
|---------------|---------------------------|----|-----------|----|-----------------------------------|----|-----------|----|----------|---|-----------|
|               | New                       | %  | Re-enroll | %  | New                               | %  | Re-enroll | %  | New      | % | re-enroll |
| SPANISH       | 171                       | 97 | 203       | 96 | 6                                 | 3  | 9         | 5  | 0        | 0 | 0         |
| CHINESE       | 304                       | 98 | 136       | 97 | 5                                 | 2  | 4         | 1  | 0        | 0 | 0         |
| ENGLISH/OTHER | 106                       | 83 | 51        | 71 | 19                                | 15 | 21        | 17 | 2        | 2 | 0         |
| TOTAL         | 581                       | 95 | 390       | 92 | 30                                | 5  | 34        | 6  | 2        | 0 | 0         |

**If you called San Francisco Health Plan for assistance, did you get the help you needed?**

The scores are very high – above 95% in five out of six categories.

**San Francisco Health Plan has affordable health insurance programs for San Franciscans aged 0-24 years old. Can we help you to find out if a family member or friend is eligible for health insurance?**

|               | Yes | No  |
|---------------|-----|-----|
| Spanish       | 59  | 70  |
| Chinese       | 20  | 105 |
| English/Other | 27  | 94  |

This is a new question that we added to the survey to see whether there are family members or friends of our members who do not have health insurance. This is a good referral list for our enrollment team.

**May we contact you for possible participation in promoting the Healthy Kids & Young Adults program to other families?**

|               | Yes | No |
|---------------|-----|----|
| Spanish       | 126 | 38 |
| Chinese       | 84  | 40 |
| English/Other | 62  | 69 |

This is the first time we asked members whether they would like to participate in promoting the Healthy Kids & Young Adults program and we received a great response from our members with 26% willing to promote the programs/services that we provide. It reflects the very high satisfaction level of our members.

## **What is the one thing you like best about the Healthy Kids program?**

Our respondents told us—sometimes very eloquently—not only one reason, but many reasons why they like our Healthy Kids program. Here is what they had to say. This is a list of most frequent reasons sorted by language in descending order.

### **CHINESE:**

1. Low cost
2. Dental services
3. All services

### **SPANISH:**

1. All services
2. Low cost
3. SFHP's customer service

### **ENGLISH:**

1. Low cost
2. SFHP's customer service
3. All Services

## **What is the one thing you would like to see changed about the Healthy Kids program?**

Our respondents also told us how the Healthy Kids program could improve. We greatly appreciated their feedback because we are committed to improve our program. Here is a list of the most frequent responses listed by language in descending order.

### **CHINESE:**

1. Nothing.
2. Make HK&YA available to more people, esp. parents and other adults.
3. Expand the provider network, esp. dentists.

### **SPANISH:**

1. Nothing.
2. Make HK&YA available to more people, esp. parents and other adults.
3. Expand the provider network, esp. dentists.

### **ENGLISH:**

1. Nothing.
2. Expand the provider network, esp. dentists.
3. Make HK&YA available to more people, esp. parents and other adults.

## Next Steps / Follow-Up

---

In 2003, we committed to work on the following items. In 2004, we included an update on our progress, and here is where we are in 2005 on addressing these issues:

- ✓ Continuing to do outreach to enroll more children in the program for which they qualify, including Healthy Kids & Young Adults.

The Healthy Kids & Young Adults membership has increased since last year by 44% to a total membership of 4,039 as of July 1, 2005. As a result of our efforts, SFHP insures 25% of all children in the City and San Francisco now has 99.2% of all children insured! We are very proud of these accomplishments.

At the same time, we continue to have to work hard to retain members, and to find the uninsured children who move to San Francisco or who lose private coverage.

- ✓ Continuing our efforts to find a way to cover parents through sponsoring AB 1524 to allow counties and county health plans to access unspent SCHIP dollars for parental coverage.

AB 1524 was signed by then-Governor Gray Davis on October 12, 2003. Ever since then, we have been trying to convince the State of California to file the required waiver with the federal government to implement the program. To date we have had no success. We are considering whether we will start a pilot parental program on the theory that it will be easier to take actions for an existing program rather than a proposed program.

Meanwhile, on January 1, 2005, we extended Healthy Kids to Young Adults (aged 19-24) who are aging out of Medi-Cal, Health Families, and Healthy Kids. We also cover uninsured parents, aged 19-24, of low-income children. Funds for the Young Adults and Young Parents extensions were provided by Mayor Newsom and the City and County of San Francisco. As of July 1, 2005, we have 1,445 Young Adults members and 181 Young Parents members.

- ✓ Continuing to provide excellent member services so that members can get their questions answered (our average time to answer calls with a live person is 9 seconds), while highlighting this number to members so they know they can call us for help with anything.

Our members have consistently told us that they are satisfied with the level of customer service provided by San Francisco Health Plan. We strive to maintain a high satisfaction score and have succeeded three years running!

- ✓ Reviewing our Member Welcome Calls script to add information about dental and vision services.

In 2004, we reviewed the Member Services Welcome Call script used when we call new members and added information regarding dental and vision services. The results show in the higher scores for dental and vision benefits.

- ✓ Providing funding through our Access Enhancement Fund to our providers for ways to increase access to care.

On November 2003, our Governing Board approved funding for 10 projects to improve access for our members, using \$800,000 SFHP received in a one-time settlement of a lawsuit against the State. Some of the projects we funded included:

- Piloting a team approach to caring for diabetics at Ocean Park Clinic to include doctor, nutritionist, pharmacist, and translator

- Mobile eye services for DPH community clinics and to decrease waiting times at SFGH Ophthalmology Service
- Purchasing equipment to help expand the urgent care services at SFGH to be available from 10 am to 10 pm, 365 days a year

In late 2004, we reviewed the Access Enhancement Fund grants mid-way through the two-year cycle. We are considering whether to do another such program in 2006.

- ✓ Continuing our funding of Children's Medical Center (via San Francisco First Five Commission) for weekend and evening hours.

The San Francisco Health Plan Access Enhancement Fund will support the Children's Medical Center after-hours clinics through January 2006. The Fund also provided two-years of funding to increase the availability of appointments at the San Francisco General Asthma Clinic by 45%, and for a number of other projects that should make getting care easier and faster for Healthy Kids & Young Adults.

- ✓ Exploring with Delta Dental orthodontia benefits (which is unlikely because it is so costly) and improving the communication of the benefits and the network. We do not believe there will be a significant expansion in the network because we cannot afford to pay higher rates. In addition, we are concerned that budget cutbacks will close some dental clinics.

In 2004 we visited the administrative offices of Delta Dental in Sacramento and shared with them our concerns regarding the results of the Healthy Kids & Young Adults survey. We specifically discussed the feasibility of expanding dental benefits to include orthodontia but unfortunately, due to the high cost, we concluded that it's not possible within the funding constraints. In addition, information on how to access dental services was added to all Member ID Cards and the enclosed welcome letter. Delta found the increase in the utilization of dental services to be significant enough to raise rates to us in 2004.

This year, we commit to discussing with Delta again the possibility of recruiting more dental providers into the program.

- ✓ Exploring with VSP ways to improve knowledge about covered services and the providers.

In 2004 we brought the results of the 2003 Healthy Kids survey to the attention of Vision Service Plan's account executives. As a result, VSP providers were trained about the Healthy Kids program. In the 2004 survey, vision services had the highest satisfaction increase (7.4 percentage points) when compared to other services, and those high scores continued into 2005 for English-speaking and Chinese-speaking members. We were disappointed, however, to find a drop in satisfaction among Spanish-speaking members. We are reviewing the individual cases to see if we can find a trend.

Also, in 2004, we added information on how to access vision services to the Member ID Cards and to the welcome letter.

- ✓ Improving our member materials to more clearly explain the basic benefits (and limitations) and how to access dental and vision services.

In 2004, the Marketing and Communications department worked hard to review redesign and improve all our member materials (handbook, provider directory, ID card, etc.). The scores for the materials in the 2004 survey went up.

This year, we did not ask questions about the materials since we wanted to trim the survey a bit and keep it focused on services. Next year we will be revising the HK&YA member handbook; we will include questions about the new handbook in the 2006 survey if the timing works out.

✓ Increasing the Healthy Kids & Young Adults retention rate.

All insurance programs, including Healthy Kids & Young Adults, lose a significant number of children. Many reasons are unavoidable – the children move out of the county or age out of the program, for example. But some are also potentially avoidable, such as the family not sending in the information needed to renew their eligibility.

SFHP's Marketing/Outreach Team convened a task force to look at ways to retain as many children as possible. SFHP efforts to reduce the number of children who leave the program at the annual review include notification efforts to remind families that they must renew to maintain eligibility. These efforts begin with a reminder phone call 60 days out from their deadline to return their renewal form; followed by a postcard 45 days out from their due date; followed by a final reminder letter 30 days out; and a final phone call 5-10 days. All notification efforts offer renewal application assistance via phone or in person.

New retention efforts that were implemented in the summer of 2004 included: 1) creating new member kits a family receives at the time they enroll with information on how to renew. The kit contains an FAQ sheet on how to get started and how to renew, a Change of Address postcard with instructions to send it to us as soon as they move, a magnetic shopping list for the refrigerator that has their renewal date printed at the top, and a high quality plastic SFHP folder designed to keep all their member materials in one place, which has a sticker with their renewal date. With loss of contact as the number one reason for families not returning their renewal forms, the goal is to widely distribute the Change of Address Card and to create and include a Change of Address message in everything we send, reminding families of the importance of notifying us if they move.

✓ Proposal to extend coverage for members until they turn 24.

DONE!

## REPLY BY APRIL 8<sup>th</sup> AND RECEIVE TWO FREE MOVIE PASSES!

---

March 25, 2005

Dear Healthy Kids & Young Adults member:

Your health is important to us! To ensure the Healthy Kids & Young Adults program continues providing great care and services, we are asking you to take a few minutes to fill out the enclosed survey. You do not have to tell us who you are and no one will contact you without your permission. The information is confidential and your answers will not be used for any other purpose.

By answering and returning this survey, you will help us get important information about how to serve you better.

Please complete the enclosed survey and return it in the enclosed postage-paid envelope **by April 15, 2005**. The few minutes you spend sharing your thoughts and suggestions will help ensure that San Francisco Health Plan's Healthy Kids & Young Adults program will continue.

**If you return the survey a week earlier [Postmarked Friday, April 8<sup>th</sup>]  
we'll send you two FREE movie passes!**

If you have any questions, please call Member Services at **1 (800) 288-5555** or **(415) 547-7800**, Monday to Friday, from 8:30 a.m. to 5:30 p.m.

Sincerely,

  
Mark Villares  
Member Relations Director

Please Return By April 15, 2005

Return it early -by April 8<sup>th</sup>- to get

**Member Satisfaction Survey**

*Your health is important to us. Please answer each question, thinking about you or your child since joining the Healthy Kids & Young Adults program. Your answers will help us to improve health care services.*

1. How did you first hear about the Healthy Kids & Young Adults program?
  - a. Friends / Relatives
  - b. School
  - c. Newspaper
  - d. Community Organization
  - e. Doctor's office or clinic
  - f. Other: \_\_\_\_\_
  
2. Was it easy to enroll in the Healthy Kids & Young Adults program?  
 **YES**    **NO**   If not, why? \_\_\_\_\_
  
3. Why did you enroll in the Healthy Kids & Young Adults program? (Check all that apply)
  - Not eligible for other health care coverage programs
  - Could not afford to pay for medical services on my own
  - Needed to see a medical doctor
  - Needed dental services
  - Needed to see an eye doctor or to get eyeglasses
  - Other: \_\_\_\_\_
  
4. How long were you or your child without health care coverage before joining Healthy Kids & Young Adults?
  - 0 to 3 months
  - 3 to 6 months
  - 6 to 12 months
  - A year or more
  
5. If you or your child visited a doctor or clinic since joining Healthy Kids & Young Adults, was the service satisfactory?
  - YES**, doctor and clinic services were satisfactory.
  - NO**, doctor and clinic services were not satisfactory. Why? \_\_\_\_\_
  - I have not yet been to a doctor or clinic since joining Healthy Kids & Young Adults.
  
6. If you or your child visited a dentist since joining Healthy Kids & Young Adults, was the service satisfactory?
  - YES**, dental services were satisfactory.
  - NO**, dental services were not satisfactory. Why? \_\_\_\_\_
  - I have not yet been to a dentist since joining Healthy Kids & Young Adults.

7. If you or your child visited an eye doctor for vision services since joining Healthy Kids & Young adults, was the service satisfactory?
- YES**, vision services were satisfactory.
  - NO**, vision services were not satisfactory. Why? \_\_\_\_\_
  - I have not yet been to an eye doctor since joining Healthy Kids & Young Adults.
8. Does the doctor or clinic speak your language?
- YES**    **NO**
  - If not, how has this been a problem? \_\_\_\_\_
- 
9. If you called San Francisco Health Plan for assistance, did you get the help you needed?
- YES**, assistance was satisfactory.
  - NO**, assistance was not satisfactory. Why? \_\_\_\_\_
  - I have not yet called for assistance since joining Healthy Kids & Young Adults.
10. What is the one thing you like best about the Healthy Kids & Young Adults program?
- \_\_\_\_\_
11. What is the one thing you would like to see changed about the Healthy Kids & Young Adults program?
- \_\_\_\_\_
12. How has the Healthy Kids & Young Adults program made a difference in your life or the lives of your children?
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
13. San Francisco Health Plan has affordable health insurance programs for San Franciscans aged 0-24 years old. Can we help you to find out if a family member or friend is eligible for health insurance?
- YES**, I would like to find out if a family member or friends is eligible. Call me at \_\_\_\_\_
  - NO**, I would not like to find out if a family member or friends is eligible.
14. **May we contact you for possible participation in promoting the Healthy Kids & Young Adults program to other families?**    **YES**    **NO**

THANK YOU for sharing your experiences and opinions!

Please return the completed survey in the enclosed postage-paid envelope by April 15, 2005.

**If you Return it a week earlier [Postmarked Friday, April 8<sup>th</sup>]**

**we'll send you TWO FREE MOVIE PASSES!**

**You must provide your mailing address below to receive your free tickets**

The following is **OPTIONAL**. The information and comments you have provided in this survey are confidential. You are not required to provide this information unless you would like assistance, or would like us to send you **FREE Movie Passes** for returning the survey by **Friday, April 8, 2005**.

- YES**, I would like assistance. Please call me at the number below.
- NO**, I do not need assistance, but please mail my free movie passes to the address below.

## Translated Member Feedback

The one thing I like best about HK&YA is...

The one thing I would like to see changed about HK&YA is...

HK&YA has made a difference in my life or the life of my kids because...

It was not easy to enroll in the HK&YA program because...

I am not happy with the visit to my doctor because...

I am not happy with the visit to my dentist because...

I am not happy with the visit to my eye doctor because...

Language was a problem when I went to the doctor because...

I called SFHP for assistance but it was not satisfactory because...

## The one thing I like best about HK&YA is...

---

Survey: 3162 "That it's very good."  
Survey: 3799 "More security in case of a health emergency."  
Survey: 4914 "It was a big importance because with it I had access to other services that were very expensive to me."  
Survey: 4391 "I don't have an answer."  
Survey: 4031 "that my son is healthy"

## HK&YA has made a difference in my life or the life of my kids because...continued

---

- Survey: 3780 "Every time my daughter has a health problem, she seeks help in a clinic or hospital without any problem."
- Survey: 1731 "now I have medical and dentist services"
- Survey: 5218 "That I have my own doctor and they treat me very well."
- Survey: 3977 "I have 5 children and I wouldn't have money to afford hospital or medical emergencies, and with this plan that covers everything I am very happy."
- Survey: 5475 "Now I can go to the doctor without thinking about how much I'll have to pay, and I'm not concerned of getting sick."
- Survey: 5089 "I feel safer for having medical care when necessary."
- Survey: 2636 "More tranquility to know that making yearly payment, one doesn't need to worry as he does with Medi-Cal."
- Survey: 4119 "Medical care."
- Survey: 5835 "That they provide us with dentist for our children."
- Survey: 4398 "The difference is that now there are doctors and it is not difficult and I'm proud to be able to go to a clinic and now they don't say no to me when I take my children to the doctor as they did before."
- Survey: 4434 "That we fell more tranquil. It gives was security to know that we can count on this program for our children."
- Survey: 4144 "The difference is that now that I have this program I can take to the doctor at any time needed. And low cost."
- Survey: 1130 "That when they came from Mexico they had many dental problems but now they don't, thanks to the plan."
- Survey: 4415 "That I feel secure regarding my daughter's health, and it doesn't burden a person very much because we pay little."
- Survey: 5665 "It allowed me to get the necessary medical care for my children."
- Survey: 1091 "That they attend to us better and know very well how to attend to people."
- Survey: 2102 "can go to the dentist or to the doctor when necessary nevertheless within our reach"
- Survey: 4579 "Thank you to Healthy Kids & Young Adults for the security."
- Survey: 4657 "That now they have coverage for each type of illness, dental and vision."
- Survey: 3972 "A lot, because in this program I don't have to pay and people speak our language and understand us."
- Survey: 3473 "That if they are sick they can get medical care and if they don't have insurance they can't."
- Survey: 5540 "The change was that I could take my child to see a pediatrician when he had asthma."
- Survey: 4870 "The happiness of knowing we can see the doctor, the dentist, and the ophthalmologist at low cost."
- Survey: 146 "That he/s can go to the doctor when he/s needs it, without any problem."
- Survey: 4912 "Because with Healthy Kids & Young Adults one goes to the doctor more often for check ups, and doesn't have the same expenses as if he/she hasn't. He/she would have to pay, and it's very difficult to see a doctor like that."
- Survey: 2248 "The difference is that each time I go to the doctor I don't have to pay much. Thank you for that!"
- Survey: 4012 "I believe this program is a good idea because we, poor family, cannot pay other insurances and this is a great help."
- Survey: 2604 "The difference is that I have vision coverage because I have eyes condition, and it has changed my life because I don't work and I don't have to pay anything. Thank you very much."
- Survey: 5111 "It changed a lot because I am a low income worker and I cannot afford to pay a health insurance for me and my partner, and Healthy Kids helps me to get to a doctor."
- Survey: 4726 "It was a big difference regarding lack of money because I can work a little and the money wasn't enough to take my daughter to the dentist."
- Survey: 3962 "I am very content."
- Survey: 2150 "Very much, because I can't pay and have 3 children. When I have an emergency I don't need to be scared for not being able to pay the doctor. Thank you!!"
- Survey: 4680 "I can trust more on doctor's visits."
- Survey: 4468 "I am sure that I will get help without being denied medical services."
- Survey: 4160 "I am sure that she will get help without being denied medical services."
- Survey: 4305 "To know that my son has access to a medical insurance gives me tranquility."
- Survey: 1892 "I don't need too much paperwork for the doctor visit and pharmacy."
