

City and County of San Francisco

Department of Public Health

You have reached a COVID-19 page that has been removed because it is outdated or no longer applicable to the current pandemic response.

As of June 11, 2021 San Francisco and the Bay Area have very low COVID-19 case rates and increasing vaccination rates. On June 15, 2021, the State terminated the Blueprint for a Safer Economy and put in place new, limited COVID-19 guidance.

San Francisco's Safer Return Together Health Order C19-07y, effective on June 15, 2021 will continue until amended or rescinded by the Health Officer. The Health Officer's declaration of a health emergency arising from the pandemic also will continue to be in effect.
