

**ORDER OF THE HEALTH OFFICER No. C19-06
(LIMITATIONS ON HOSPITAL VISITORS)**

DATE ORDER ISSUED: March 13, 2020

Please read this Order carefully. Violation of or failure to comply with this Order constitutes a misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety Code §§ 120295, *et seq.*)

Summary: The virus that causes Coronavirus 2019 Disease (“COVID-19”) is easily transmitted, especially in group settings, and it is essential that the spread of the virus be slowed to protect the ability of public and private health care providers to handle the influx of new patients and safeguard public health and safety. Many patients of hospitals are being treated for health conditions that make them particularly vulnerable to suffering the most serious complications of COVID-19 infection, including death. Also, medical personnel and other essential staff of hospitals will likely experience increased stress associated with providing excellent care during this public health emergency. It is critical to protect both populations from avoidable exposure to pathogens. Visitors to hospitals may carry the COVID-19 virus but may not display symptoms or may have mild symptoms. Such visitors can unwittingly pass the virus on to patients and staff. Because of the risk of the rapid spread of the virus, and the need to protect all members of the community, especially including patients and health care providers, this Order restricts Visitors and Non-Essential personnel from all Hospitals within the City and County of San Francisco (the “City”).

This Order is in effect from 8 a.m. on March 14, 2020. It must be implemented as quickly as possible and will continue for seven weeks through April 30, 2020, subject to the limited exceptions and under the terms and conditions more particularly set forth below. This Order is based on the California Department of Public Health and United States Centers for Disease Control and Prevention guidelines issued March 11, 2020. The Health Officer may revise this Order as the situation evolves, and covered facilities must stay updated by checking the Department of Public Health website (sfdph.org) regularly.

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, THE HEALTH OFFICER OF THE CITY AND COUNTY OF SAN FRANCISCO (THE “HEALTH OFFICER”) ORDERS:

- 1. Effective as of 8:00 a.m. on Saturday March 14, 2020 and continuing until 11:59 p.m. on April 30, 2020, the staff of each Hospital, as that term is defined in Section 20 below, shall, as quickly as can be implemented, exclude from entry or access to its Premises any Visitors and Non-Essential Personnel including, but not limited to, visitors of patients at the Hospital. Such Visitors and Non-Essential Personnel, including, but not limited to, family members of patients and authorized decision-**

ORDER OF THE HEALTH OFFICER No. C19-06

makers, are ordered not to visit any Hospital except as expressly permitted by this Order under limited exceptions as described in Section 11 below.

2. To the maximum extent possible, each Hospital must discourage Non-Essential Patient Movement, as defined in Section 14 below, onto, off of, and within the Hospital's Premises, as that term is defined in Section 14 below, where feasible. Whenever a Hospital patient leaves the Hospital's Premises, the patient is ordered to comply with the social distancing practices issued by the San Francisco Department of Public Health on March 6, 2020 and updated on March 13, 2020 (the "Social Distancing Recommendations"), a copy of which is attached to this Order and incorporated by this reference, as well as the guidance regarding gatherings issued by the California Department of Public Health ("CDPH") on March 11, 2020 (available online at https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/Gathering_Guidance_03.11.20.pdf) and the "Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission" issued by the United States Centers for Disease Control and Prevention ("CDC") on or around March 11, 2020 (available online at <https://www.cdc.gov/coronavirus/2019-ncov/downloads/community-mitigation-strategy.pdf>), including as these items are updated in the future.
3. This Order is issued based on evidence of increasing occurrence of COVID-19 within the City and throughout the Bay Area, scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically, and evidence that the age, condition, and health of a significant portion of the patient population of Hospitals places them at risk of serious health complications, including death, from COVID-19. Due to the outbreak of the COVID-19 virus in the general public, which is now a pandemic according to the World Health Organization, there is a public health emergency throughout the City. The rate of patients accessing healthcare for COVID-19 related treatment is expected to increase in the coming days and weeks, further increasing burdens and demands on regional medical personnel and exposing those personnel to additional risk of infection. It is therefore critical to minimize avoidable exposure to COVID-19 whenever possible. This order is being issued because some individuals who contract the COVID-19 virus have no symptoms or only mild symptoms, which means they may not be aware they are carrying the virus into a Hospital. Finally, by reducing the spread of the COVID-19 virus within Hospitals, this Order helps preserve critical and limited healthcare capacity in the City and the people who provide care.
4. This Order also is issued in light of the existence of 21 cases of COVID-19 in the City, as well as at least 117 reported cases and at least one death in the Bay Area, as of 10:00 a.m. on March 13, 2020, including a significant and increasing number of assumed cases of community transmission and likely further significant increases in transmission. Widespread testing for COVID-19 is not yet available but is expected

ORDER OF THE HEALTH OFFICER No. C19-06

to increase in the coming days. This Order is necessary to slow the rate of spread and the Health Officer will re-evaluate it as further data becomes available.

5. This Order is issued in accordance with, and incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom, the February 25, 2020 Proclamation by the Mayor Declaring the Existence of a Local Emergency issued by Mayor London Breed (as supplemented on March 11, 2020 and March 13, 2020), the March 6, 2020 Declaration of Local Health Emergency Regarding Novel Coronavirus 2019 (COVID-19) issued by the Health Officer, and the CDPH guidance referred to in Section 2 above, as each of them have been and may be supplemented.
6. This Order is also issued in accordance with, and incorporates by reference the March 12, 2020 Executive Order (Executive Order N-25-20) issued by Governor Gavin Newsom. Executive Order N-25-20 expressly orders that “[a]ll residents are to heed any orders and guidance of state and local public health officials, including but not limited to the imposition of social distancing measures, to control the spread of COVID-19.”
7. Each Hospital must, within 48 hours of receipt of this Order, develop and implement a written plan (“COVID-19 Plan”). This Order does not require a Hospital to create any new documentation if it already has written policies or other written guidance that address the requirements for the COVID-19 Plan. The plan must comply with applicable guidance from the United States Centers for Disease Control and Prevention (“CDC”) (available online at www.cdc.gov) and the California Department of Public Health (“CDPH”) (available online at www.cdph.ca.gov) regarding the screening of patients, staff, and visitors for signs of COVID-19 or other illness. The COVID-19 Plan must also address other applicable COVID-19-related guidance, including steps to reduce the risk of COVID-19 transmission by authorized visitors (such as through hand washing, masking, maintaining at least six feet distance from other people, and limiting the duration of visits, as appropriate). Nothing in this Order prohibits a Hospital from taking steps more protective against transmission of COVID-19 than guidance provided by the CDC or CDPH in its plan. Each Hospital must update its COVID-19 Plan when new COVID-19 recommendations or requirements are issued by the CDC or CDPH or as otherwise required by law. See the COVID-19 Guidance (discussed in Section 10 below) for more information about the COVID-19 Plan.
8. Each Hospital’s COVID-19 Plan must also include a requirement that any employee or other staff member who is sick or does not pass the required screening must be immediately sent home and not return to work until feeling better or authorized to return by a physician. If a Hospital is unable to immediately send home any such employee or staff member, then the Hospital must (1) prevent that staff member from engaging in any patient care or contact (except in an emergency when the

ORDER OF THE HEALTH OFFICER No. C19-06

Hospital is doing whatever it can to protect patients) and (2) immediately notify its respective licensing entity and seek guidance from that entity. This Order is based in part on the Social Distancing Recommendations, which state that the “general public should avoid going to medical settings such as hospitals, nursing homes and long-term care facilities, even if [they] are not ill.”

9. If a Hospital learns that any patient or staff member who is, or within the two weeks prior was, working at the Hospital tests positive for COVID-19, then the Hospital must immediately (within 1 hour) notify the Department of Public Health and meet any other applicable notification requirements.
10. Attached as part of this Order is written guidance to Hospitals (“COVID-19 Guidance”) issued by the Health Officer. The Health Officer or designee may revise the COVID-19 Guidance in writing from time to time. Each Hospital should periodically check the DPH website (sfdph.org) to confirm it is following the most recent COVID-19 Guidance. Each Hospital must follow the COVID-19 Guidance when applying this Order.
11. This Order restricts physical contact between Hospital patients, Visitors and Non-Essential Personnel. When Visitors and Non-Essential Personnel seek to visit or contact a patient, there are two ways a Hospital may facilitate contact. First, each Hospital must make reasonable efforts to facilitate such contact by other means (such as telephone or videoconference) that do not expose the patient to in-person contact. Second, each Hospital may authorize Necessary Visitation (as defined in the following paragraph) on a case-by-case basis using the following protocol.

“Necessary Visitation” means a visit or contact that is based on urgent health, legal, or other issues that cannot wait until after the duration of this Order. If the needs and context of a particular request for Necessary Visitation justifies a temporary exception to this Order, then the Hospital Administrator may arrange for Necessary Visitation of a Hospital patient. For purposes of this Order, the Hospital Administrator may act through a designee. The decision about whether the needs and context justify a temporary exception is left to the determination of the Hospital Administrator, who must make the decision based on this Order and the COVID-19 Guidance. Necessary Visitation also includes support persons for minors (those under 18 years old) or for persons with developmental disabilities who require assistance. Also, any Necessary Visitation permitted under this Section must be done subject to requirements of the COVID-19 Guidance and as otherwise deemed appropriate by the Hospital. For example, Necessary Visitation must include appropriate steps to protect patients from exposure to the COVID-19 virus, which might include hand washing, masking, maintaining at least six feet distance from other people, and a short duration of visit as appropriate. Visitors permitted under this paragraph are ordered to comply with all conditions of visitation imposed by

ORDER OF THE HEALTH OFFICER No. C19-06

the Hospital at the time of entry or access to the Premises.

12. If any Visitor or Non-Essential Person refuses to comply with this Order, then the Hospital may contact the San Francisco Police Department to request assistance in enforcing this Order. The Hospital shall take whatever steps are possible within the bounds of the law to protect patients and staff from any such visitor or person who refuses to comply with this Order. For example, a Hospital should contact facility security and ask the unauthorized visitor or person to comply with conditions of visitation imposed by the Hospital. Even if a Visitor or Non-Essential Person otherwise complies with the facility's visitation protocols as outlined in this paragraph, that individual is still in violation of this Order if the individual's presence is not a Necessary Visitation under Section 7 above.

13. This Order does not restrict first responder access to the Hospital's Premises during an emergency. Further, this Order does not restrict local, state or federal officers, investigators, or medical or law enforcement personnel from carrying out their lawful duties on the Hospital's Premises. Persons other than first responders permitted access under this paragraph must comply with all conditions of visitation imposed by the Hospital at the time of entry or access to the Hospital's Premises when feasible.

14. Definitions.

a) "Visitors and Non-Essential Personnel" are employees, contractors, volunteers, or members of the public who do not perform treatment, maintenance, support, or administrative tasks deemed essential to the healthcare mission of the Hospital. Refer to the COVID-19 Guidance for more information. This term includes family members and loved ones of patients and those who have legal authority to make healthcare or other legal decisions for a patient. The Ombudsperson is an authorized visitor and is not included in this term, but the Ombudsperson must still follow all conditions of visitation imposed by the Hospital and should also try to avoid non-essential visits. Nothing in this Order prohibits a patient from seeking care at any Hospital or at any clinic or other location providing health care or other services on the Hospital's Premises.

b) "Non-Essential Patient Movement" means travel off, onto or within the Hospital's Premises by a patient other than for specific treatment or pressing legal purposes as described more fully in the COVID-19 Guidance.

c) "Premises" includes, without limitation, the buildings, grounds, facilities, driveways, parking areas, and public spaces within the legal boundaries of each Hospital within the City.

ORDER OF THE HEALTH OFFICER No. C19-06

- 15. This Order shall be effective until 11:59 p.m. on April 30, 2020, or until it is earlier rescinded, superseded, or amended by the Health Officer or by the State Public Health Officer, in writing. It is possible this Order will be extended for the protection of Hospital patients based on conditions at that time.**
- 16. While this Order is in effect, the Hospital must provide copies of the Order in all of the following ways: (1) post this Order on the Hospital website (if any); (2) post this Order at all entrances to the Hospital; (3) provide this Order to each Hospital patient; (4) provide this Order to any authorized decision maker for each Hospital patient if not the patient, including any conservator; (5) provide this Order to the Hospital Ombudsperson (if any); and (6) offer it to anyone who visits the Hospital or who contacts the Hospital seeking to visit.**
- 17. Each Hospital must within 12 hours of receipt of this Order notify its respective licensing entity (whether the California Department of Public Health or otherwise) of the existence of this Order regarding the Hospital.**
- 18. The Health Officer will continue to assess the quickly evolving situation and may, at any time or from time to time, modify or extend this Order, or issue additional orders, related to COVID-19.**
- 19. If any subsection, sentence, clause, phrase, or word of this Order or any application of it to any person, structure, gathering, or circumstance is held to be invalid or unconstitutional by a decision of a court of competent jurisdiction, then such decision will not affect the validity of the remaining portions or applications of this Order.**
- 20. This Order applies to each facility listed below (each a Hospital):**

General Acute Care Hospitals:

Facility Name	Street Address	ZIP
1. California Pacific Medical Center - Davies Campus	601 Duboce Ave	94117
2. California Pacific Medical Center - Mission Bernal Campus	3555 Cesar Chavez	94110
3. California Pacific Medical Center - Van Ness Campus	1101 Van Ness Ave	94109
4. Chinese Hospital	845 Jackson St	94133
5. Kaiser Foundation Hospital - San Francisco	2425 Geary Blvd	94115
6. Laguna Honda Hospital & Rehabilitation Center	375 Laguna Honda Blvd	94116
7. Priscilla Chan And Mark Zuckerberg San Francisco General Hospital	1001 Potrero Ave	94110
8. Saint Francis Memorial Hospital	900 Hyde St	94109

ORDER OF THE HEALTH OFFICER No. C19-06

9. St. Mary's Medical Center	450 Stanyan St	94117
10. UCSF Medical Center	505 Parnassus Ave	94143
11. UCSF Medical Center At Mission Bay	1975 4th Street	94158
12. UCSF Medical Center At Mount Zion	1600 Divisadero St	94115

Acute Psychiatric Hospitals:

Facility Name	Street Address	ZIP
1. California Pacific Medical Center D/P APH	2323 Sacramento St	94115
2. California Pacific Medical Center Davies Campus Hospital D/P APH	601 Duboce Ave	94117
3. Jewish Home & Rehab Center	302 Silver Ave	94112
4. Langlely Porter Psychiatric Institute	401 Parnassus Ave	94143
5. Saint Francis Memorial Hospital D/P APH	900 Hyde St	94109
6. Zuckerberg San Francisco General Hospital D/P APH	1001 Potrero Ave	94110
7. St. Mary's Medical Center D/P APH	450 Stanyan St	94117

A HOSPITAL PATIENT OR THE PATIENT'S AUTHORIZED LAWFUL REPRESENTATIVE MAY CONTACT A REPRESENTATIVE OF THE HOSPITAL TO SEEK CLARIFICATION OF ANY PART OF THIS ORDER BY CONTACTING PATIENT SERVICES OF THE FACILITY.

IF A PATIENT OR THE PATIENT'S AUTHORIZED LAWFUL REPRESENTATIVE OBJECTS TO THE APPROPRIATENESS OF THE LIMITATION ON ACCESS CONTAINED IN THIS ORDER, THEN THE PATIENT OR LAWFUL AUTHORIZED REPRESENTATIVE MAY RAISE CONCERNS WITH THE HOSPITAL. THE HOSPITAL SHOULD RESPOND TO THE CONCERN WITHIN 2 BUSINESS DAYS IF POSSIBLE. IF A RESPONSE IS NOT RECEIVED WITHIN 2 BUSINESS DAYS OF RECEIPT OF THE OBJECTION, THEN THE OBJECTION WILL BE CONSIDERED NOT GRANTED.

IT IS SO ORDERED:

Tomás J. Aragón, MD, DrPH,
Health Officer of the
City and County of San Francisco

Date: March 13, 2020

**WRITTEN GUIDANCE REGARDING COMPLIANCE WITH
ORDER OF THE HEALTH OFFICER No. C19-06**

DATE ORDER ISSUED: March 13, 2020

This information (the “COVID-19 Guidance”) is meant to help each Hospital implement the Order to which it is attached. This document uses the terms defined in the Order.

1. For purposes of the Order, the term “Administrator” means the administrator of a Hospital or the administrator’s designee.
2. The Order does not prohibit a Hospital from being more restrictive in its operations and practices than is outlined in the Order. The Order also does not require permitting visitation when not otherwise required by applicable laws or regulations.
3. Guidance regarding Sections 7 and 8 (COVID-19 Plan): The Order requires the Hospital to create a COVID-19 Plan that addresses issues including: 1) screening of patients, staff, and visitors for signs of COVID-19 or other illness; 2) conditions of visitation imposed by the Hospital at the time of entry or access to the Premises for authorized visitors that reduce the risk of infection, such as thorough hand washing, appropriate use of Personal Protective Equipment (PPE), maintaining at least six feet distance from other people, and limiting the duration of visits, as appropriate; 3) sending sick employees home immediately; 4) notifying DPH and other regulators of any positive COVID-19 result for a patient or staff member, including as required by law; and 5) other CDC or CDPH requirements. Note that the Order does not require a Hospital to create any new documentation if it already has policies or other guidance that address the requirements for the COVID-19 Plan.

The COVID-19 Plan should also address how the facility can reduce the risk of unnecessary exposure as outlined in the San Francisco Department of Public Health Social Distancing Protocols, a copy of which is attached to the Order. For example, the facility should avoid large in-person gatherings of patients or staff when feasible.

Additionally, there may be areas that warrant limitations that are not normally in place. A Hospital may have a cafeteria or other concession that is normally available to patients, essential employees, other employees (such as others who share the building but are not associated with the healthcare mission of the facility), and visitors. While this Order is in effect, the Hospital should consider whether a restriction on such use makes sense. One option might be to limit cafeteria visits to patients and essential staff and temporarily block other employees from that area.

If the facility had plans to have vendors come onsite for meetings or to show sample products, those meetings should be conducted via remote communication, occur at another site that does not include a vulnerable population, or be postponed until after this emergency situation if possible.

4. Guidance regarding Section 10 (efforts to facilitate contact that is not in-person): The Order requires the Hospital to make reasonable efforts to facilitate contact between an Unauthorized Visitor or Non-Essential Personnel and a patient. Such efforts include using technology to

**WRITTEN GUIDANCE REGARDING COMPLIANCE WITH
ORDER OF THE HEALTH OFFICER No. C19-06**

facilitate a remote connection with the patient when possible and would include telephone calls, telephone conferences involving multiple people, and video conferences using appropriate technology. Efforts are not reasonable if they interfere with the Hospital's healthcare mission or if they are not available or are cost prohibitive. The Hospital is encouraged to be creative in trying to facilitate contact that is not in-person so long as it complies with its other legal and regulatory obligations.

5. Guidance regarding Section 10 (Necessary Visitation): The term Necessary Visitation refers to a visit or contact that is based on urgent health, legal, or other issues that cannot wait until later. Nothing in the Order limits the standard healthcare that the Hospital provides to a patient. When medical care is appropriate or required, it is by definition permitted under the Order. Necessary Visitation refers to other types of visits or contact that are time-sensitive or critical. Necessary Visitation also includes support persons for minors (those under 18 years old) or for persons with developmental disabilities who require assistance, and the intent of the Order is for a Hospital to permit visitation by these listed support persons except in situations when doing so would conflict with the Hospital's mission.

For example, a patient may be in the end stages of life. In that instance, family or loved ones should be permitted to be with the patient unless doing so would interfere with the Hospital's mission in light of the current emergency. Another example would be a patient who is updating their will or other legal papers and an in-person meeting with the lawyer or family members or a notary is required, again unless doing so would interfere with the Hospital's mission. But, a meeting with a lawyer to discuss future changes or other, non-urgent issues should generally be postponed or conducted via telephone or other means.

Anyone who is legally authorized to make decisions for the patient, whether by operation of a durable power of attorney or public or private conservatorship, must be given special consideration, especially if they need to meet in person with the patient to fulfill their role. This distinction is in place because decisions regarding care when there is a surrogate decision maker should not be delayed when in-person contact is needed, whereas visits by other family or loved ones are important but may not be time-sensitive. But such authorized decision-makers should be encouraged to use alternative methods of contacting the patient when possible in order to avoid exposing the patient and others.

Also, Necessary Visitation should not be granted for routine visits by decision makers, family, or loved ones, even if the patient very much looks forward to the visit or the visitor has a strong desire for the visit. Such routine visits put all patients at risk at this time. But if a family member or loved one plays an essential role in providing care to a patient, without which the patient will suffer medical or clinical harm, Necessary Visitation may be appropriate.

There may be other unique situations that justify a Necessary Visitation based on the context. And as the situation evolves, the Hospital may need to restrict Necessary Visitation. This

**WRITTEN GUIDANCE REGARDING COMPLIANCE WITH
ORDER OF THE HEALTH OFFICER No. C19-06**

Order is intended to give the Administrator flexibility in making that determination so long as the decision is in line with the Order and this COVID-19 Guidance. The Administrator should not authorize Necessary Visitation for all or a majority of patients as that would likely reflect a violation of the intent of the Order to protect all patients from the risks of non-essential exposure to COVID-19.

All visits allowed as Necessary Visitation must occur subject to all conditions of visitation imposed by the Hospital at the time of entry or access to the Premises.

- 6. Guidance regarding Section 14 (Unauthorized Visitors and Non-Essential Personnel): The Order defines Unauthorized Visitors and Non-Essential Personnel as employees, contractors, volunteers, or members of the public who do not perform treatment, maintenance, support, or administrative tasks deemed essential to the healthcare mission of the Hospital. This term includes non-patient spouses or partners, family, loved ones, friends, clergy, and colleagues of the patient. This term also includes anyone who is legally authorized to make decisions for the patient, whether by operation of a durable power of attorney or public or private conservatorship (but see guidance above about decision-maker visits).

This term also includes employees of the Hospital or its vendors (and their employees) who are not needed in the short term for the facility to perform its healthcare mission. For example, a vendor that makes deliveries of large bottled water refill jugs is likely not essential. However, the facility should work to see if there are ways to permit delivery, such as on a loading dock, which would eliminate the need in the short term for someone to make visits all across the facility. This Order grants the Administrator authority to make judgment calls about how best to ensure the facility is able to operate during this emergency situation.

The term Unauthorized Visitors and Non-Essential Personnel does not include patients who are seeking care or other services from clinics or other service facilities located on the Hospital Premises. But a Hospital is not required by this Order to keep open any specific facilities, clinics, or services.

- 7. Guidance regarding Section 10 (Non-Essential Patient Movement): The Order defines Non-Essential Patient Movement as travel off or onto Hospital Premises by a patient other than for specific treatment or pressing legal purposes. This is contrasted with situations when a patient leaves the facility for health-related purposes or as required by law, such as for a meeting or service mandated by a court. The goal of the Order is to encourage patients to limit Non-Essential Patient Movement.

* * *

Dated: March 13, 2020

PUBLIC HEALTH RECOMMENDATIONS AS OF MARCH 11, 2020 (revised)

1) Vulnerable Populations: Limit Outings

- Vulnerable populations include people who are:
 - 60 years old and older.
 - People with certain health conditions such as heart disease, lung disease, diabetes, kidney disease and weakened immune systems.
 - People who are pregnant or were pregnant in the last two weeks.
- For vulnerable populations, don't go to gatherings (of 10 people or more) unless it is essential. If you can telecommute, you should. Avoid people who are sick.

2) Workplace and Businesses: Minimize Exposure

- Suspend nonessential employee travel.
- Minimize the number of employees working within arm's length of one another, including minimizing or canceling large in-person meetings and conferences.
- Urge employees to stay home when they are sick and maximize flexibility in sick leave benefits.
- Do not require a doctor's note for employees who are sick.
- Consider use of telecommuting options.
- Some people need to be at work to provide essential services of great benefit to the community. They can take steps in their workplace to minimize risk.

3) Large Gatherings: Cancel Non-essential Events

- Recommend cancelling or postponing large gatherings, such as concerts, sporting events, conventions or large community events.
- Do not attend any events or gatherings if sick.
- For events that aren't cancelled, we recommend:
 - Having hand washing capabilities, hand sanitizers and tissues available.
 - Frequently cleaning high touch surface areas like counter tops and hand rails.
 - Finding ways to create physical space to minimize close contact as much as possible.

4) Schools: Safety First

- If there is a confirmed case of COVID-19 at a school, DPH will work with the school and the district to determine the best measures including potential school closure.
- Do not go to school if sick.
- If you have a child with chronic health conditions, consult your doctor about school attendance.
- Equip all schools and classrooms with hand sanitizers and tissues.
- Recommend rescheduling or cancelling medium to large events that are not essential.
- Explore remote teaching and online options to continue learning.
- Schools should develop a plan for citywide school closures, and families should prepare for potential closures.

City and County of San Francisco Department of Public Health

PUBLIC HEALTH RECOMMENDATIONS AS OF MARCH 11, 2020 (revised)

5) Transit: Cleaning and Protection

- Increase cleaning of vehicles and high touch surface areas.
- Provide hand washing/hand sanitizers and tissues in stations and on vehicles.

6) Health Care Settings: Avoid as possible, protect the vulnerable

- Long term care facilities must have a COVID-19 plan in accordance with DPH guidelines.
- Long term care facilities must screen all staff and visitors for illness and turn away those with symptoms.
- The general public should avoid going to medical settings such as hospitals, nursing homes and long-term care facilities, even if you are not ill.
- If you are ill, call your health care provider ahead of time, and you may be able to be served by phone.
- Do not visit emergency rooms unless it is essential.
- Visitors should not go to long-term care facilities unless absolutely essential.

7) Everyone: Do your part

The best way for all San Franciscans to reduce their risk of getting sick, as with seasonal colds or the flu, still applies to prevent COVID-19:

- Wash hands with soap and water for at least 20 seconds.
- Cover your cough or sneeze.
- Stay home if you are sick.
- Avoid touching your face.
- Try alternatives to shaking hands, like an elbow bump or wave.
- If you have recently returned from a country, state or region with ongoing COVID-19 infections, monitor your health and follow the instructions of public health officials.
- There is no recommendation to wear masks at this time to prevent yourself from getting sick.

You can also prepare for the possible disruption caused by an outbreak. Preparedness actions include:

- Prepare to work from home if that is possible for your job, and your employer.
- Make sure you have a supply of all essential medications for your family.
- Prepare a child care plan if you or a care giver are sick.
- Make arrangements about how your family will manage a school closure.
- Plan for how you can care for a sick family member without getting sick yourself.
- Take care of each other and check in by phone with friends, family and neighbors that are vulnerable to serious illness or death if they get COVID-19.
- Keep common spaces clean to help maintain a healthy environment for you and others. Frequently touched surfaces should be cleaned regularly with disinfecting sprays, wipes or common household cleaning products.

Keep up to date at www.sfdph.org, by calling 311, and by signing up for the City's new alert service for official updates: text COVID19SF to 888-777. Also see the "Implementation of Mitigation Strategies for Communities with Local COVID-19 Transmission" issued by the United States Centers for Disease Control and Prevention ("CDC") on or around March 11, 2020 (available online at www.cdc.gov/coronavirus/2019-ncov/downloads/community-mitigation-strategy.pdf).
