Medical Widgets

September 18, 2015

Exciting new Medical Widgets! Use the new Medical Widgets for a quick view of your client's current medication list, vital signs and (soon to come) laboratory results. Medical Widgets are available to all Avatar users who can view clinical information, not just medical staff.

Medical Widgets are only 1 click away. In the client's Chart View, click the button on the bottom of the page labeled, "Current Medications, Lab Results, Vitals". All three widgets will display. To close, click on the button again.

Current Medications Widget

- Displays the client's current medication information from Avatar by drug name, dosage, start and end date. In order to assure the most comprehensive list, unless discontinued by the prescriber, medications remain on the list one year past the end date
- If the client doesn't have medication information:
 - "No prescribed medications recorded in Avatar" will display
 - "No other medications recorded in Avatar" will display if there are no other medications, such as primary care medications
 - "The client is not on any medications" will display if the 'no medications noted' box is checked in Avatar
- For more detailed client Avatar medication information, run Avatar reports: "Med List and Allergies" and "Medication History"
- For SF Health Network medication information, go to the client's eLinks Enterprise Med List

Lab Results Widget

- Please note that Avatar electronic lab results is currently in pilot test mode and is not fully operational
- The Lab Results Widget displays lab results recorded in Avatar
- Search for results by time period and type of lab test
- Warning - if the lab widget displays "No information found" it means there is no lab data in Avatar. The client may have lab results in other records such as Labcorp or LCR

Vitals Widget

- Displays the last ten entries from Avatar "Vitals Entry" form, sorted by date
- Contains blood pressure, weight, height and BMI
- Click on any date to link directly to the client's Vitals Entry form
- For trending tables, graphs and growth charts go the Vitals Entry form, Vitals Report page

Need Help?

- If you need assistance with the use of Avatar, contact the Avatar Help Desk at 415-255-3788 or via e-mail at avatarhelp@sfdph.org
- If you have questions about the content of the Medical Widgets, contact Gloria Wilder at 415.255.3703 or Gloria.Wilder@sfdph.org.

Here's how the Medical Widgets look for a test client with meds and vitals:

The screenshot shows the Avatar 2015 interface for a client named TESTCLIENT_SUMMARY (00000001). The client's details include: F, 35, 07/01/1980, Ht: 5' 11.0", Wt: 280 lbs, BMI: 39. The interface is divided into several sections:

- Current Medications:** A table listing medications with columns for Drug Name, Dosage, Start Date, and End Date.

Drug Name	Dosage	Start Date	End Date
Benztropine Mesylate	- 2MG, TAB, PO (1)ea QAM	09/17/2015	10/16/2015
LaMictal	- 150MG, TAB, PO (1)ea QHS	09/17/2015	01/14/2016
flUPHENAZine HCl	- 5MG, TAB, PO (1)ea QHS	09/17/2015	01/14/2016

 A warning message is displayed: "**Warning: Patient caught doctor shopping**". Below this, two non-prescribed medications are listed: benazepril and carbamazepine, both with unknown dosages.
- Vitals:** A table showing recorded vital signs with columns for Recorded date, BP (mmHg), WT (lbs), HT (in), and BMI.

Recorded	BP (mmHg)	WT (lbs)	HT (in)	BMI
09/17/2015	125/85	280	71	39
08/19/2015	135/85	290	71	40.4
07/04/2015	101/101	303	135.5	47.6
06/03/2015	110/80	220	71	30.7
05/05/2015	130/95	250	71	34.9
04/08/2015	145/100	270	71	37.7
02/19/2015	281/381	110	65.1	18.2
01/20/2015	150/80	135	65.5	22.1
12/20/2014	160/90	120	65.5	19.7
- Lab Results:** A section titled "Lab Results" with a search filter showing "No information found." for the date range 09/17/2015 to 09/17/2015.

At the bottom, there are navigation buttons: "Click here for the ELinks page/Chart view", "Current Medications, Lab Results, Vitals", and "Progress Notes, CLIENT EPISODES". The status bar at the bottom indicates "AVCALPHIVE (LIVE)" and "09/17/2015 01:20 PM".

Here's how the Medical Widgets look for a test client with no meds or vitals:

The screenshot shows the Avatar 2015 interface for a client named TEST_TWOSEVENTYONE (999026399). The client's details include: F, 33, 12/16/1981. The interface is divided into several sections:

- Current Medications:** A table with columns for Drug Name, Dosage, Start Date, and End Date. The table is empty, with red text indicating "No medications recorded in Avatar" and "No other medications recorded in Avatar".
- Vitals:** A table with columns for Recorded date, BP (mmHg), WT (lbs), HT (in), and BMI. The table is empty.
- Lab Results:** A section titled "Lab Results" with a search filter showing "No information found." for the date range 09/17/2015 to 09/17/2015.

At the bottom, there are navigation buttons: "Click here for the ELinks page/Chart view", "Current Medications, Lab Results, Vitals", and "Progress Notes, CLIENT EPISODES". The status bar at the bottom indicates "Avatar 2015" and "7:38 AM".

Remember: to close out of Medical Widgets, click on the button "Current Medications, Lab Results, Vitals" again.
