Avatar Bundles

March 4, 2015

Background

During the DSM 5 installation, many of the Avatar Bundles were deactivated. We are pleased to announce that the Avatar Bundles have been restored and are ready for your use.

A bundle is a way to link two or more Avatar forms together. Bundles can come up sequentially or simultaneously. In sequential bundles, the next form comes up after you submit the first one. In simultaneous bundles, all the forms in the bundle open simultaneously; you will see the tabs along the top of the page related to each of the forms in the bundle. In all cases, even if a form is bundled with another, they will each remain available as stand-alone forms.
