There are 17 reorganized sections that provide an improved top down flow to the form. It is important to work your way down from the top of the form as ratings in top sections will enable ratings in subsequent sections.

Multi-functional Form
This form replaces the old assessment, the closing summary and the old service eligibility form (renamed, “screen”) performing the same functions all in this one form. Begin by selecting the correct Assessment Category (below are the associated “form events” that happen when you select a specific category).

- **Initial**: All sections enabled except 16 & 17.
- **Mid-Year**: Only the rated items are enabled; narrative fields (except Summary of Treatment) are disabled. Sections 10, 14, 15, and 17 are disabled.
- **Annual**: All sections enabled except 17.
- **Closing**: Only the rated items are enabled; narrative fields (except Summary of Treatment and Discharge Plans) are disabled. Sections 10, 14, 15, and 17 are disabled.

CANS Screen
If “Screen” is selected, the above message will display. Only programs authorized to submit a CANS Screen should proceed.

The “Screen” option will enable the core CANS ratings and disable the narrative fields in the form. The CANS Screen section will also be enabled.
New Pop-Up Reminder
When selecting Initial, Annual or Closing, a reminder will display indicating a diagnosis needs to be completed.

Templates
The icon will indicate there is a template available for this narrative box.

Right click inside the narrative box to get a drop down menu. Click on “System Templates” to access the template that is available for this narrative.

Link to Diagnosis Form
A link to the Diagnosis form has been added.
The “Pre-Display”
When opening a CANS form, once you have selected a client and episode, the “Pre-Display” will list all instances of the form that have previously been filed for the selected client and episode (as shown). This step is skipped by Avatar when there are no previously filed instances of the form for the selected client and episode.

“Pull Forward” Functionality
With this redesign of the form, a clinician will be able to “pull forward” information from any initial into their mid-year, from any mid-year into their annual, and, finally, into a closing assessment.
Caregivers
There are two sections for caregivers.
- Section 7 - Caregiver Strength/Needs
- Section 8 - Additional Caregiver Strength/Needs
The caregiver data reported in section 7 will be sent to the State. Caregiver data reported in section 8 will not be sent to the State.

There is a checkbox in section 7 of there is no caregiver or minor consent is given.

Iteration Tables
Section 8 Additional Caregiver Strengths/Needs is an example of an iteration table. The unusual aspect of the iteration table is that while fields appear to be “red and required” they are not. This section can be skipped and the form can be finalized.

Only when the “Add New Item” button is selected are the fields (in red) required to be completed.
New Cultural Stress Category

There is a new module to capture cultural stress data. To activate the Cultural Stress Category module, a rating above “0” will need to be recorded for Cultural Stress.

Cultural Stress is captured for the client and caregiver. You will see this module in the caregiver sections.
Updated Lightbulbs
All rated items have associated help messages (lightbulbs), formatted for improved readability. You can see these help messages by hovering your cursor over the light bulb icon.

In the first screenshot below, the cursor is hovering over the light bulb associated with the Physical Abuse field. The second screenshot shows the same help message after clicking the light bulb icon.

The information in the lightbulbs can also be found in the updated CANS manuals.
The “Priorities for Treatment Report” button will display the needs items rated a “2” or “3” and the strength items rated “0” or “1” so you can begin to prioritize these for treatment planning.

Example of report is displayed here.

After reviewing the items displayed on the report, check the corresponding boxes in the “Priorities for Treatment” field.
1 – Presentation Section (screen capture)
### Trauma/Abuse Section

#### Trauma Events
- Sexual Abuse
- Physical Abuse
- Emotional Abuse
- Neglect
- Medical Trauma
- Witness to Family Violence
- Witness to Community Violence
