

Performance Objective A.2.a Improvement on the CANS
Fiscal Year 18-19 Q1 7/1/2018 - 9/30/2018

Objective: Clients will improve on at least 50% of their actionable items on the CANS.
The chart shows the % of clients improving on 50% or more of their actionable CANS items.

Note: This report compares a matched pair of CANS for each client; the most recent CANS matched to next most recent CANS within an episode. The most recent CANS occurred 7/1/2018 through 9/30/2018. Items used are those of the domains Needs, Strengths, Impact on Functioning, and Risk Behaviors. "Number improved" means number of clients who showed improvements in at least 50% of their actionable items (those rated as either a 2 or 3 on the next most recent CANS). The amount of points the program will receive on the BOCC monitoring report is based on the percent of clients who achieve this 50% improvement benchmark as follows:

% of clients achieving the CANS benchmark	Points
72-100%	5
64-71%	4
56-63%	3
48-55%	2
40-47%	1
<40%	0

Based on CANS pairs from data queried on November 19, 2018.
