FY19-20 Q4 Performance Objective A.2a
Needs Outcomes Item-Level Report

7/1/2019 - 6/30/2020

The charts below display the Needs items from the CANS. The stacked columns represent the total number of episodes with an actionable rating on each item, and the number of those that improved.*

Mean number of months between CANS: 12.1
Median number of months between CANS: 11.7
Number of CANS pairs with actionable items: 1600
Number of CANS pairs with improvement: 886
Number of CANS pairs without actionable items: 50
Number of children/youth: 1563

Percent of episodes improved on 50% or more of items: 55.4%

**Behavioral/Empotional Needs • 6 thru 20**

**Traumatic Stress Symptoms • 6 thru 20**

*The two most recent CANS are included for each child/youth episode, with the most recent CANS occurring during the reporting period. Only CANS with a minimum of 8 months of treatment between assessments are included. Actionable ratings are items rated as a 2 or a 3, and improvement is a decrease of 1 point or more.*
