Note: This report compares a matched pair of CANS for each child/youth; the most recent CANS matched to next most recent CANS within an episode. The most recent CANS occurred 7/1/2022 - 6/30/2023. Items used are those of the Strengths domain. "Number maintained and/or developed" means (a) number of child/youth episodes for which at least two useful or centerpiece strengths were maintained (rated as either a 0 or 1 on both the most recent CANS), or (b) number of child/youth episodes for which at least two useful or centerpiece developed (rated as 0 or 1 on the most recent CANS and as 2 or 3 on the next most recent), or (c) number of child/youth episodes for which at least <u>one</u> useful or centerpiece strength was maintained. The number of points the program will receive on the BOCC monitoring report is based on the percent of child/youth episodes that achieve this maintenance/development benchmark as follows:

% of Clients Achieving the CANS Benchmark	Points
90-100%	5
80-89%	4
70-79%	3
60-69%	2
50-59%	1
<50%	0

Based on CANS pairs from data queried on September 13, 2023.
