

Performance Objective A.2.a Improvement on the CANS  
Fiscal Year 17-18 Q4 7/1/2017 - 6/30/2018

Objective: Clients will improve on at least 50% of their actionable items on the CANS.  
The chart shows the % of clients improving on 50% or more of their actionable CANS items.

Note: This report compares a matched pair of CANS for each client; the most recent CANS matched to next most recent CANS within an episode. The most recent CANS occurred 7/1/2017 through 6/30/2018. Items used are those of the domains Needs, Strengths, Impact on Functioning, and Risk Behaviors. "Number improved" means number of clients who showed improvements in at least 50% of their actionable items (those rated as either a 2 or 3 on the next most recent CANS). The amount of points the program will receive on the BOCC monitoring report is based on the percent of clients who achieve this 50% improvement benchmark as follows:

% of clients achieving the CANS benchmark		Points
72-100%	=	5
64-71%	=	4
56-63%	=	3
48-55%	=	2
40-47%	=	1
<40%	=	0

Based on CANS pairs as of 2018-09-06
