6. On Page 14 of the RFP, it says “if undefined, must describe the process they will use to work with their Priority Populations to access the issues facing the community and define a PSE solution.” We will be working with child care providers who serve children ages 0-5. Do all child care providers have to implement the same PSE solution? (e.g., increased access to water), or can child care providers determine their own individual PSE solution (based on their Healthy Apple self-assessment, an evidence-based tool)?

Child care providers may determine different PSE (Policy, Systems, Environmental) solutions. All PSE solutions must be approved by DPH.

7. In the Letter of Intent, if we check off certain priority populations on the chart, are we obligated to submit a proposal that includes all of the priority populations that we check off?

No, but at least one of the priority populations must be addressed in the application.

8. Can you please confirm that the estimated funding available is indeed $250,000 to $350,000 per year per grantee?

Annual funding for contracts may vary or change according to the availability of funds, performance of contractor, etc. This funding opportunity was created on the assumption of stable funding over the contract term.

9. Does the maximum page limit of 15 include all of the budget documents?

No. The 15 page limit only applies to the narrative portion of your proposal.

10. Can funding be used for existing / ongoing programs?

Yes.

11. Can we apply for a program that is not yet up and running?

Yes.

12. Can our agency apply for 2 or more different programs?

Yes. However, it is important that your proposal clearly describe how your agency will address the program priority populations separately.
