EMS Education & Training Survey

San Francisco EMT’s and Paramedics:

The San Francisco EMS Agency recently launched our Education & Training Program. The program aims to offer high-quality, locally-relevant training and course offerings for local EMT’s and Paramedics through web-based and on-site formats. CE’s will be issued for participation in any content offered.

A driving principle of the program will be a collaborative approach to curriculum design and planning, and input from our field providers is an important component.

Please consider filling out this brief survey, which can be accessed using the QR code below. Your feedback will help determine some of our initial training topics and guide future program planning. The survey will close on May 8, 2021.
