RESOLVED, That MHSF IWG finds as follows:

1. As described above, the State of California and the City remain in a state of emergency due to the COVID-19 pandemic. At this meeting, MHSF IWG has considered the circumstances of the state of emergency.

2. As described above, State and City officials continue to recommend measures to promote physical distancing and other social distancing measures, in some settings.

3. As described above, because of the COVID-19 pandemic, conducting meetings of this body and its Discussion Groups in person would present imminent risks to the safety of attendees, and the state of emergency continues to directly impact the ability of members to meet safely in person.

Acquisition of 822 Geary Street for DPH Behavioral Health Bed Expansion

December 14, 2021
MHSF Implementation Workgroup

David Pating, MD (DPH)
822 Geary Street and 629 Hyde Street

- Prior use: Goodwill Store
- Contiguous parcels, providing access points on both Geary and Hyde
- Properties were not available separately
DPH Behavioral Health Bed Expansion

- DPH is increasing residential treatment and care services by approximately 400 treatment spaces or overnight beds.
- This expansion is guided by the 2020 DPH Behavioral Health Bed Optimization Report, Mental Health San Francisco legislation, and input from stakeholders.
- Our goal is to offer high-quality, recovery-oriented care, in the least restrictive setting.
- 822 Geary & 629 Hyde are ideally located and a possible site for a Crisis Diversion Unit and a Safe Consumption Site. Significant work including site fit-test and community outreach is needed prior to committing to this use.

## DPH Behavioral Health Residential Treatment Expansion

The San Francisco Department of Public Health (DPH) is increasing residential treatment and care services by approximately 400 overnight treatment spaces, or beds. The expansion effort is guided by the 2020 DPH Behavioral Health Bed Optimization Report, Mental Health SF legislation, and with input from stakeholders. The goal is to offer high quality, timely, easily accessible, coordinated, and recovery-oriented care delivered in the least restrictive setting.
