

Stay tuned for information on a
**San Francisco Collaborative on Children & Youth with
Special Health Care Needs**

Caregiver & Youth Advisory Board

Recruiting THIS SUMMER for parents, caregivers, and youth members.

Talk with other parents, caregivers, youth, medical professionals, and organization staff across the city. Co-create solutions to how medical and mental health care, social and recreation organizations, school services, and more can work together to create a supportive environment for ALL children and youth with diverse needs and abilities.

In addition to Board meetings, affinity spaces for Black/African American, Cantonese-Speaking, & Spanish Speaking members will be available. Affinity spaces allow people who share an identity—race, gender, sexual orientation, ability- to gather, talk in a safe space about issues related to that identity, and transfer that discussion into action that makes for a more equitable experience for their community.

Stipends available for caregiver and youth participants.
