

Live births to San Francisco residents

Distribution by zip code, 2012-2021

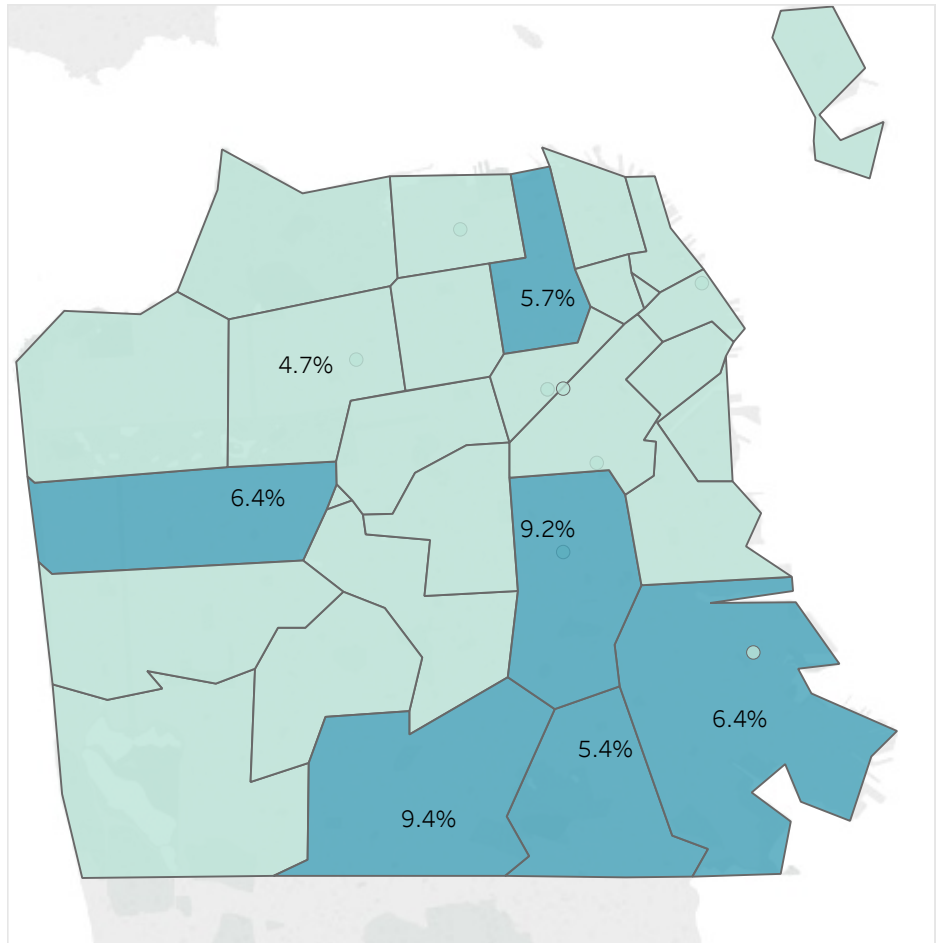

San Francisco Health Network
Maternal Child and Adolescent Health

2012-2016

2017-2021

Percent of all SF births to residents in each zip code

Percent of all SF births to residents in each zip code

Data source: California Department of Public Health Vital Records Business Intelligence System (VRBIS). Annual reporting period is January 1 through December 31. Analyses are based on one record per live birth delivered in California. Analyses exclude records for births delivered out-of-state, births to people who are not San Francisco residents, and records with unknown data or errors.
