a. Review of annual report submission

Members noted that the last SDDTAC was a very long meeting and good. Member noted that she had hoped that the meeting be split into two meeting but generally the budget recommendation meeting are long. Member added that the budget review process was different since voting happened on each category. Members suggested to possibly revisit the process with the new co-chairs and possibly formalize and discuss so meetings can be run more smoothly especially since meetings are now online. Member also highlighted that after voting was completed there was no discussion about what was voted on. Members agreed that the aligning of categories moved forward initially and at the end there were some critical areas that needed to be discussed without seeing the whole picture and hopefully it can be done for future budget recommendation meetings.

8. Review of Infrastructure Work Plan [discussion and possible action]

Staff reviews work plan and notes that work plan typically starts out in March annually after the report is completed. Member shares that over the years there were many tasks for the infrastructure subcommittee and that the foundation has been set so there aren't as many tasks in comparison to other subcommittees. Members discussed possible presentations that could be presented at the SDDTAC meetings: Healthy Retail Program to present in July, equity work being done around the API and Black community, SFUSD to present in September, healthy community grantees, as well as PSE grantees. Staff to provide list of SDDT funded organizations and to identify who will present in May – October. Suggested presentations on the evaluation report possibly in November or December and unclear about data report as of yet. Subcommittee will also discuss the possibility of presentations from matter experts. Member asked about violence prevention work from RPD to present.
