

SDDTAC strategic planning consultant

Planning document

SDDTAC is looking for a consultant to help it with a strategic planning process, possibly including:

- Vision/Mission development
- Logic model development
- Clarity around relative importance of different approaches and how it impacts SDDT investments. Prioritization.
 - direct service vs policy, systems, environment strategies:
- Discussion of role of city agencies vs. communities with respect to SDDT revenue investments

Possible Qs for consultant –

- What is your process for developing a vision/mission
 - with a large group
 - with limited time
- What is your process for developing a logic model
 - with a large group
 - with limited time
- How would you help committee identify how committee meet its desired outcomes
 - what steps they would take to help committee develop a strategic plan and recommended timeline
 - how much time would you need
 - what would your approach be
 - with respect to time (an intensive x# day retreat, series of meetings over a course of x# months, etc)
 - with respect to approach (What tools would you use?)
 - How do you handle conflict?
 - How do you help groups prioritize?
- Experience working with commissions/committees where some are volunteer some are paid to be there – (about respecting time, commitment, etc)
- What's your experience working with CBOs serving B/AA, Latinx, API, Native American communities
- What's your experience in public health/public health departments
 - Chronic disease
 - Direct service vs. PSE
- What's your proposed budget for at \$40k investment
- Provide 3 references
