6. Preparation for March 2019 Report [Discussion and Action]

- a. 20-21 Funding Recommendations and Report

Request was made for DPH to provide more in depth description of infrastructure costs, including description of evaluation.

Committee determined that they will continue 19-20 recommendations to 20-21 and allocate the 40k at that time because committee may want to reevaluate other elements including evaluation and media. Will incorporate language something to the effect of "Every year, the SDDTAC is tasked with making 2 year budget recommendations with the expectation that new information will emerge during the course of the first year (from funded organizations, ongoing community input, new data and evidence, etc) that will inform potential changes to the second year budget. For example, this year the SDDTAC is making recommendations on FY 19-20 and FY 20-21. The SDDTAC will re-evaluate FY 20-21 recommendations at the end of 2019 with the plan to make changes, as deemed appropriate, and vote on final FY 20-21 recommendations in March 2020."

7. Review Survey of city departments 17/18 report

Recommend including language that indicates committee role in evaluating impact of tax.

“Committee mandated to evaluate impact of the tax; recommend that funds are marked in such a way that departments and grantees are aware they are considered SDDT funds.” This allows advisory committee to be accountable to the ordinance.

Committee agreed to incorporate the survey report into the SDDTAC 2019 annual report as an appendix with a brief overview describing it as a first attempt to collect data, in context of the fact that the committee didn’t make recommendations for 17/18 and many city departments were unaware that the funding was allocated to them as a result of soda tax revenue. Will note that there will be an evaluator to conduct a more robust data collection process for future years; and to do that they are recommending increased allocation to evaluation via infrastructure.

Ask MBO if those agencies listed as two years for addbacks are continuing? (staff learned that they are continuing). Committee considered whether members should go to supervisors to ask about add backs.

Want to include the food security funded programs in evaluation. After March, infrastructure committee will recommend to SDDTAC that they receive orientation about budget process including addback process as well as Food security. Want to do so when all new members seated. Once orientation happens, will recommend which agencies to make a presentations. Infrastructure will calendar out those presentations. Consider recommending that HSA-DAAS – and someone from FSTF present b/c high proportion of funds going toward food security. Would also want other agencies receiving funds including: DPH, RPD, HOPE SF
