3.0 DISCUSSION WITH DEORAH BORNE, MD, STREET MEDICINE FOR CONCRN.

3.1 Discussion

Dr. Borne is the Medical Director for Mobile Services. She feels it is critical to integrate primary care and behavioral health care. She reports to Kelly Hiramoto, Director of Transitions. Dr. Borne feels that everyone who sits at the table for crisis services must meet regularly, HOT Team, Transitions, Jail Health, Linkage and evaluation (two areas that are weak). Gaps in the system are case manager supervision with the mobile HOT team, supply of housing and an available doctor or nurse. She made the following suggestions:

- Stakeholder group to review successes and failures
- Outcomes agreed upon and achievable; should first measure staff trauma
- Palliative Care
- Combining efforts and cultures
- Women who have lost custody of their children
- People who have suffered medical trauma
- Continuum of Care

She quoted Dr. Love who teaches trauma informed care. He said folks are dying of childhood trauma and the choices they made as a result.
