**3.4 RESOLUTION:** (MHB 02-2019) The Mental Health Board urges the City and County of San Francisco to develop a system of oversight and accountability for buildings providing permanent supportive housing to people with behavioral health challenges.

**WHEREAS,** permanent supportive housing residences provide behavioral health services and case management to vulnerable populations, and;

**WHEREAS,** the people residing in these buildings have behavioral health issues, are very low income and rarely have other housing options, and;

**WHEREAS,** permanent housing buildings require that building owners have contracts with property management services to collect rents and oversee building maintenance and repairs, and;

**WHEREAS,** it is contractually necessary for property management services and City and County of San Francisco funded case management and behavioral health services provided in these buildings to maintain a separation of duties, and;

**WHEREAS,** it has been reported that supportive service staff are violating 1996 Health Insurance Portability and Accountability Act (**HIPAA**), that protects the privacy of their clients, and;

**WHEREAS,** some of these residences are in varying states of neglect and disrepair with incidents of mold, structural damage, missing or broken fixtures and appliances, vermin infestation, and outdated and potentially hazardous plumbing, electrical, and mechanical systems with rusty pipes and brown water, and;

**WHEREAS,** after seeking resolution with case management, some residents have escalated their concerns through the designated channels and still fear retaliation for voicing their concerns around building conditions and property management practices, and;

**WHEREAS,** males significantly outnumber females in the majority of the permanent housing residences and many female residents have expressed feeling unsafe, and site incidents of severe bullying incidents and direct threats to harm, and;

**THEREFORE, BE IT RESOLVED** that, even with separate responsibilities and legal requirements between case management services and property management, it is essential that this mutual exclusivity not result in unsafe or unnecessarily stressful conditions for residents, and;

**FURTHER RESOLVED,** that residents of permanent supportive housing need an entity, agency, or City department where their grievances can be heard and addressed, and; **THEREFORE, BE IT RESOLVED** that The Mental Health Board urges the City and County of San Francisco to develop a system of oversight and accountability for buildings providing permanent supportive housing to people with behavioral health challenges.
