

Child Health & Disability Prevention (CHDP) Program Oral Health Educational Resources For Babies and Young Children (Birth – 5 years)

Child Health & Disability Prevention (CHDP) Program Oral Health Educational Resources For Infants and Children (Birth – 5 years)

A healthy mouth is part of a healthy body. The *Oral Health Educational Resources Guide for Infants and Children (Birth – 5 years)* is intended for use by CHDP providers to help access various oral health educational materials for patients within this age group. This list was compiled by the CHDP Bay Area Regional Dental Subcommittee and contains ordering information, description of the materials, and targeted age groups to better direct the CHDP provider to the specific topic of interest. Materials can be used as a supplement for anticipatory guidance discussion. This resource guide can be accessed at
