

Respirator Medical Evaluations and N95 Fit Testing Resources

List Updated 1/20/2021

Cal/OSHA regulations have multiple requirements for occupational respirator use. Readers are encouraged to review 8 CCR 5144 "Respiratory Protection" <https://www.dir.ca.gov/title8/5144.html> and 8 CCR 5199 "Aerosol Transmissible Diseases" <https://www.dir.ca.gov/title8/5199.html> for additional information.

One critical feature is that respirator users need to be **medically screened** to verify that they are capable of wearing a respirator without harm. Additionally, respirator users need to be **fit-tested** to verify the brands, models, and sizes of respirators they'll be issued to verify if the respirators fit them, and trained on the proper donning, use, and doffing of the respirators.

The following are random-order lists of clinics, companies, and individuals who have advised the SFDPH that they are available to provide the service (typically for a fee). This is not a complete list of all sites providing the services, and inclusion on this list should not be construed to be any type of pre-qualification, review, approval, or endorsement by the San Francisco Department of Public Health. If you, your clinic, or your company provides respirator medical evaluations or N95 fit testing and training, and you would like to be added to the list, please email DPH.DOC.SafetyOfficer@sfdph.org.

Respirator Medical Evaluations

Concentra Urgent Care

415-781-7077

2 Connecticut St, San Francisco, CA 94107 OR
