

Recommended COVID-19 Testing Laboratories

Below is a compiled list of recommended COVID-19 testing laboratories certified by the California State Department of Health. These labs are recommended for use by the San Francisco Department of Public Health because they meet the minimum requirements outlined in the SFPD health directive on school reopening and can provide optimal operational elements to support timely and effective roll out of school testing strategy. If you have any further questions, please contact schools-childcaresites@sfdph.org.
