# Issue Brief Overview

# Issue Brief Overview

## Issue Brief Goals:

- + Answer important questions about the City's current jail system
- + Provide Work Group members with additional information on alternative facility options

## Key Questions:

- + By how many people must we reduce the jail population to permanently close the seismically deficient County Jails #3 and #4 without needing to build a replacement facility?
- + What are the needs of San Francisco's jail population that we are not currently meeting and how could those needs be served in facilities outside of the Sheriff's custody?

# Small Group Activity

- + **After Public Comment WG members will count off**
- + **Purpose** – Inform the WG on the jail bed reduction planning formula, apply the formula to a few proposed jail reduction strategies, and to discuss facility options that have surfaced to date
- + **Documents**
  - + Jail Bed Reduction Formula Handout
  - + Small Group Discussion Template
  - + Issue Brief – Facility Options
- + The Template summarizes potential facility option strategies described in the Issue Brief to stimulate discussion and gather feedback on the proposed options that could create housing alternatives outside Sheriff custody. Examples are not intended to be comprehensive or prioritized.
