

Tracker of Work Group Strategy Edits

WG #8 (10/28/16)

Strategy Category	Action #	Action	Edit	Source of edit	Notes
C1. Invest in City Housing	1	Prioritize the development of affordable housing.	Should replace "affordable" with "low and very low income housing"	WG member	
C1. Invest in City Housing	1	Prioritize the development of affordable housing.	More below-market rate housing	WG member	
C1. Invest in City Housing	3	Increase housing capacity: shelter, transitional, supportive, and permanent housing.	Create multiple small, scattered supportive housing sites	WG member	
C1. Invest in City Housing	3	Increase housing capacity: shelter, transitional, supportive, and permanent housing.	Pathways to permanent housing and basic needs beyond short term services.	No New SF Jail Coalition	
C1. Invest in City Housing	4	Embed wraparound services in the community, focusing on the Housing Authority Sites.	Focusing on the Housing Authority sites limits the audience to transient populations	WG member	Expand the description to emphasize this as Intercept 0, pre-law-enforcement preventative services. Emphasize that these are behavioral health services, focused on the populations/neighborhoods that appear in high numbers in the incarceration statistics.
C2. Invest in Behavioral Health Facilities	6	Increase the number of available county-funded locked psychiatric beds (e.g., Level 4 of Behavioral Health Justice Center).	Opposed to Level 4 of the BHJC. Instead recommend reinstating funding of the 47 inpatient psychiatric inpatient beds at SFGH that have been lost, and reinstating funding for IMD beds back to the levels prior to 2007.	WG member	
C2. Invest in Behavioral Health Facilities	7	Create a Behavioral Health Justice Center (respite beds, short-term residential treatment beds, long-term residential dual diagnosis treatment beds, short-term secure inpatient transitional care).	De-couple the BHJC from any other recommendations	WG member	
C2. Invest in Behavioral Health Facilities	7	Create a Behavioral Health Justice Center (respite beds, short-term residential treatment beds, long-term residential dual diagnosis treatment beds, short-term secure inpatient transitional care).	Suggested to move this action under C5	WG member	
C4. Invest in Jail Facility Renovations	9	Renovate County Jail #2 to safely accommodate incarcerated people currently housed at County Jail #4.		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	If there is renovation of CJ #2 or reconstruction of any kind, there must be consideration during the design phase for the specific needs of gender variant, intersexed people, transgender people and cis-females. Representation from the Transgender, Gender Variant & Intersex Justice Project (TGJIP) as well as Transgender Law Center (TLC) must be present at all stages of development.
C5. Invest in Jail Replacement Beds	11	Build a new jail facility to address gap in jail beds necessary to close seismically deficient CJ#3 and #4.		WG member	This is the reason we are meeting in the first place- there shall be no new jail, and to sneak it in is really disingenuous and lacks respect for the work group, whose reason for existence is that we are to recommend alternatives to building any kind of locked facility.
C5. Invest in Jail Replacement Beds	11	Build a new jail facility to address gap in jail beds necessary to close seismically deficient CJ#3 and #4.		WG member	Recommendations for building a new jail should be taken off list of strategies because we didn't collectively discuss and agree upon that as a workgroup
C5. Invest in Jail Replacement Beds	11	Build a new jail facility to address gap in jail beds necessary to close seismically deficient CJ#3 and #4.		WG member	Remove any thought of "new" jail beds

Tracker of Work Group Strategy Edits

WG #8 (10/28/16)

C5. Invest in Jail Replacement Beds	13	Develop contract with Alameda County for replacement jail beds to address gap in jail beds needed to close sesimically deficient CJ#3 and #4.		WG member	Alameda grabbed that money the state offered and is building a huge jail industrial complex to add to the one already existing in Dublin. We are not Alameda and our purpose is not NOT create a jail industrial complex in SF and NOT to provide Alameda with our citizens so they can cash in with a higher head count
C6. Invest in Community-based Programs (NEW)	14 (NEW)	Create more small, community-based residential behavioral health treatment centers. (NEW)	Please add "Community-based 14 bed residential behavioral health treatment centers." This is a capital investment.	WG member	
C6. Invest in Community-based Programs (NEW)	14 (NEW)	Create more small, community-based residential behavioral health treatment centers. (NEW)	Develop smaller, community-based residential treatment programs.	WG member	
C6. Invest in Community-based Programs (NEW)	14 (NEW)	Create more small, community-based residential behavioral health treatment centers. (NEW)	Expansion of community-based mental health services, such as smaller community-based organizations/mental health services in our communities	WG member	
P1. Improve efficiency of case resolution	8	Monitor and reduce continuances in case proceedings.		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Establish intensive case management, mental health services and multiple substance use treatment options are at the frontend to prevent recidivism
P2. Increase use of collaborative courts	11	Provide incentives to increase the likelihood that defendants will elect to seek treatment through collaborative court processes.	Provide incentives and expand elibility guidelines to increase the likelihood that defendants will elect to seek treatment through collaborative court processes.	WG member	
P2. Increase use of collaborative courts	n/a	n/a		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Create a Women's Collaborative Court
P3. Reduce or eliminate bail payment	12	Advocate for reduction of bail amounts in San Francisco Superior Court's bail schedule.	Should state "Advocate for San Francisco City and County bail reform"	WG member	
P3. Reduce or eliminate bail payment	14	Advocate for reform of statewide laws on bail.		No New SF Jail Coalition	Bail and bond reform that supports the people who are most targeted by policing and jails.
P5. Reduce or eliminate housing of federal detainees	17	Terminate contract with federal government to house federal prisoners.		WG member	The city and country of SF does not need to be doing the marshals any favors; the marshals CAN afford to pay SF for housing their prisoners. Shipping our prisoners to other counties, like Santa Rita is also not a point agreed on, and is opposed. Shipping prisoners to Santa Rita is not cost effective, and it places an undue burden on the families of prisoners, and by extension severing the ties, that all studies show, are crucial to any kind of rehabilitation.
P6. Continue to invest in data collection, data sharing, data quality, and data transparency	21 (NEW)	Expand the San Francisco Police Department's capacity to collect data, and require that the department collect data on cite and arrests. (NEW)	Should include requirements of police to collect data on those they arrest or cite on ethnicity, race, gender, employment status, residency, dependents and charges.	WG member	

Tracker of Work Group Strategy Edits

WG #8 (10/28/16)

P6. Continue to invest in data collection, data sharing, data quality, and data transparency	n/a	n/a		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Continually update results of research and identify new models from which to learn
P7. Adopt policies that will reduce racial disparities	22	Ensure any investments in capital, programs, and services include an analysis on disparate racial impact.		WG member	Reduce the number of SFPD arrests of homeless and Black/people of color, including reducing arrests in 94102
Policy	n/a	n/a		WG member	Decriminalize homelessness by abolishing Quality of Life laws and putting a moratorium on any new anti-homeless laws
Policy	n/a	n/a		WG member	Reduce SFPD personnel and budget, including challenging the voter mandate
S1. Develop coordinated continuum of services that address root causes of incarceration	1	Expand recuperative care sites (e.g., Sobering Center, DORE Urgent Care).	These items listed are crisis diversion programs not recuperative care sites	WG member	
S1. Develop coordinated continuum of services that address root causes of incarceration	2	Expand 24-hour psychiatric center (no beds).	Too vague and appears to be referring to Dore Urgent Care, which is a 24/7 24 hour length of stay psychiatric crisis diversion/de-escalation program that has no beds, just comfy chairs.	WG member	New programs should be in scattered sites in the neighborhoods that people exiting jail live in.
S1. Develop coordinated continuum of services that address root causes of incarceration	4	Increase the number of residential treatment beds available for individuals with substance abuse dependencies and/or mental health needs (e.g., 47-bed Psychiatric Respite Program, Levels 2 and 3 of Behavioral Health Justice Center).	Should read "substance use disorder" not "substance abuse dependencies." BHJC should be removed from this section. The examples listed should be dual dx programs such as Baker Places, Progress Foundation, faith based s/u residential treatment programs, etc.	WG member	The 47 bed respite treatment program that DPH is working on should remain in that section. The point that the majority in this work group have attempted to drive home is that substance use and mental illness are public health problems not criminal justice problems. As such they require solutions that fall squarely in the realm of public health interventions and must be divorced from the criminal justice system.
S1. Develop coordinated continuum of services that address root causes of incarceration	6	Use mobile bus platforms (like Lava Mae showers) to bring services to communities.	The current distillation of this strategy reduces mobile units to portable homeless showers. Should revert back to original recommendation wording "Bring multiple co-located services into neighborhoods (via mobile or community-based centers)"	WG member	Recommend placing this in Capital Investments, as these community centers will need to be built
S2. Expand and improve non-law enforcement outreach and intervention	n/a	n/a	Separate services from law enforcement.	No New SF Jail Coalition	People should have access to programs and facilities without fear of criminalization.
S3. Expand opportunities for pre-booking and pre-trial release	18	Increase the capacity of Public Defender's Bail Unit to file more motions to reduce or eliminate bail in more cases.		WG member	Should add as an example to create an Public Defender-early representation unit.
S3. Expand opportunities for pre-booking and pre-trial release	19	Develop pilot program in which law enforcement can redirect low-level offenders to services instead of jail (e.g., Seattle LEAD program).		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Stop arrest of women for minor offenses, provide detention alternatives
S5. Expand and improve discharge planning and reentry services	25	Integrate more previously incarcerated individuals into the Mentoring and Peer Support program (MAPS) which provides peer mentoring and support services for clients with co-occurring disorders within the Behavioral Health Court, the Drug Court, and the Veterans Justice Court.		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Prioritize peer-led programs both inside and outside of custody.

Tracker of Work Group Strategy Edits

WG #8 (10/28/16)

S5. Expand and improve discharge planning and reentry services	26	Expand funding for community-based organizations to better coordinate their work with discharge planning.		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Link and inform WRC of scheduled exit.
S5. Expand and improve discharge planning and reentry services and C3. Invest in Navigation and Support Facilities	26	Expand funding for community-based organizations to better coordinate their work with discharge planning.		The Gender Variant, Transgender & Women's Coalition for Alternatives to Incarceration	Guarantee all women released from custody timely release and safe passage to their destination. Establish a navigator program staffed by Community Health Workers (CHWs) to support/accompany gender variant, transgender and cis females being released from custody.
S5. Expand and improve discharge planning and reentry services	30	Consolidate reentry and social services and resources for at-risk populations and previous offenders, making them more accessible and well-staffed.		WG member	These one stop service centers should be located in the neighborhoods that most people that are criminalized live in, BayView, Tenderloin, Mission, Hayes Valley, Western Addition, Visitation Valley, etc.. They should be staffed by people with ties to those communities, who are invested in those communities.
S7. Expand the capacity of community-based organizations (NEW)	36 (NEW)	Reinvest in community-based organizations that hold local knowledge but face limited resources. (NEW)		No New SF Jail Coalition	Reinvest in the community by working with experienced local grassroots organizations.
