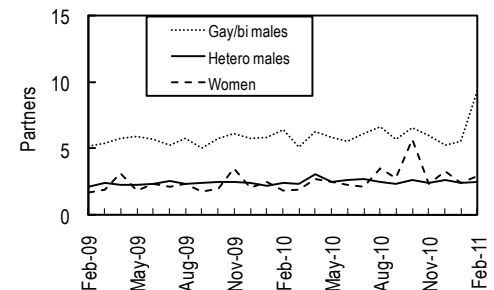

Figure 3. Average number of recent\* sex partners for City Clinic visits by gender and sexual orientation. \*Recall period is 3 months.

## Celebrating City Clinic's 100 year Anniversary!

April is STD Awareness Month and we in the STD Prevention and Control Section of the San Francisco Department of Public Health are embarking on our annual STD awareness campaign for adolescents and adults in San Francisco. We are incredibly excited this year to celebrate the 100 year anniversary of City Clinic which has been offering sexual health services in the city since 1911. Look for a new website that will highlight this centennial milestone as well as a fun compilation of 100 items related to sexual health and romance. You can find this through an upcoming link on the Clinic website: [www.sfcityclinic.org](http://www.sfcityclinic.org). We will also be hosting a special 100<sup>th</sup> anniversary event the evening of April 25 to highlight City Clinic's important role in ensuring state-of-the-art sexual health services and information for all San Francisco residents. If you are interested in attending, please contact us at [100yearsofsex@sfdph.org](mailto:100yearsofsex@sfdph.org). In addition to these special activities, as always during STD Awareness month, we will have several STD outreach and screening activities. You can keep up with all our announcements on Facebook at San Francisco City Clinic or on Twitter, @SFCityClinic. JM/SP
