

San Francisco Monthly STD Report

Data for March, 2018
Report prepared May 24, 2018

Table 1. STDs among residents, March, 2018.

	2018		2017	
	month	YTD	month	YTD
Gonorrhea	485	1,469	439	1,288
Male rectal gonorrhea	142	422	121	397
Chlamydia	734	2,317	804	2,230
Male rectal chlamydia	215	629	200	584
Syphilis (adult total)	140	439	167	420
Primary & secondary	44	142	65	175
Early latent	75	236	79	193
Unknown latent	6	10	0	0
Late latent	15	51	23	52
Neurosyphilis	1	5	3	3
Congenital syphilis	0	0	0	0
PID	4	7	6	14

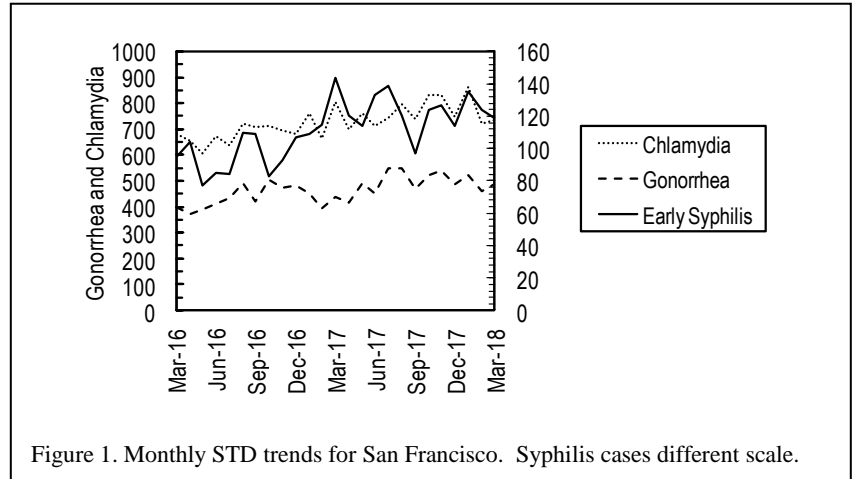

Figure 1. Monthly STD trends for San Francisco. Syphilis cases different scale.

Table 2. Selected STD cases and rates for San Francisco by age and race/ethnicity, 2018 through March only. Rates equal cases per 100,000 residents per year based on 2010 US Census Data.

	(All races)		Asian/PI		African American		Hispanic		White	
	cases	rate	cases	rate	cases	rate	cases	rate	cases	rate
<i>All ages</i>										
Chlamydia	2,317	1,151.0	319	480.2	235	2,009.4	413	1,356.6	730	865.3
Gonorrhea	1,469	729.7	133	200.2	180	1,539.1	297	975.6	577	684.0
Early syphilis	378	187.8	44	66.2	42	359.1	86	282.5	176	208.6
<i>Under 20 yrs</i>										
Chlamydia	176	1,266.3	19	343.2	46	3,912.4	52	1,644.0	15	489.3
Gonorrhea	31	223.1	2	36.1	11	935.6	6	189.7	4	130.5
Early syphilis	5	36.0	0	0.0	3	255.2	1	31.6	0	0.0

Table 3. HIV testing among City Clinic patients, March, 2018.

	2018		2017	
	month	YTD	month	YTD
Tests	568	0	567	0
Antibody positive	3	0	5	0
Acute HIV infection	0	1,565	0	1547

Note: All statistics are provisional until the annual report is released for the year. Morbidity is based on date of diagnosis. Totals for past months may change due to delays in reporting from labs and providers.

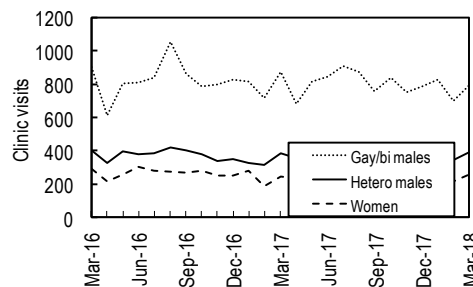

Figure 2. City Clinic visits by gender and orientation.

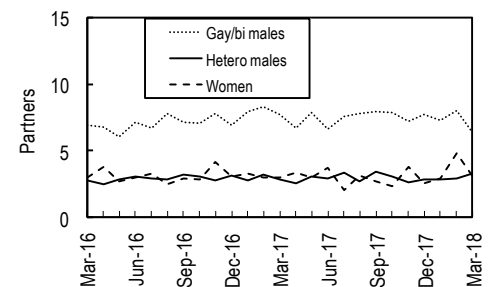

Figure 3. Average number of recent* sex partners for City Clinic visits by gender and sexual orientation.

*Recall period is 3 months.

One Stop PrEP at MISSION WELLNESS

Mission Wellness Pharmacy (MWP), in collaboration with SFDPH, has launched a new and innovative Pharmacist Delivered PrEP Program. This program, the first of its kind in California, aims to improve access to PrEP and reduce HIV disparities among communities of color in San Francisco.

The Mission Wellness Pharmacist Delivered PrEP program, named **One Stop PrEP at Mission Wellness** and located in SF's Mission District, will address the disparity in PrEP awareness, knowledge and uptake by providing culturally sensitive one-stop access to PrEP and STD testing services. Currently, individuals who would like to start taking PrEP need to schedule an appointment with a physician for required labs and a prescription. At MWP, clients will have access to free HIV, Hepatitis C and STD testing. If medically-eligible for PrEP, clients can also receive same-day PrEP on-site without having to see a physician.

This program was made possible through SF's "Getting To Zero" consortium (www.gettingtozerosf.org), which aims to eliminate new HIV infections, deaths caused by HIV, and stigma associated with HIV.

For more information on PrEP, please visit our website: <http://www.sfcityclinic.org/services/prep.asp>

Other PrEP resources available to San Francisco clinicians include:

- The national PrEP Clinician Consultation line at (855) 448-7737 or (855) HIV-PrEP, Monday–Friday, 8 am–3 pm PST.
- The Pacific AIDS Education & Training Center (PAETC) offers free technical assistance and training related to PrEP and clinical practice: www.PAETC.org, e-mail: paetcmail@ucsf.edu or telephone (415) 476-6153. –SEC/SSP
