About ASIAN PACIFIC AMERICAN MENTAL HEALTH DAY:

May is established nationally as Asian American and Pacific Islander Heritage Month and Mental Health Awareness Month. Established by the State of California, the City & County of San Francisco, Los Angeles County, and the City of Austin (TX), Asian Pacific American Mental Health Day on May 10 recognizes the importance of raising awareness about mental health and promoting mental wellness in the Asian Pacific American community. The establishment of Asian Pacific American Mental Health Day was an effort spearheaded by RAMS and overwhelmingly supported by many major associations and community coalitions. Since May is already established nationally as the Asian Pacific American Heritage Month and as Mental Health Awareness Month, institution of this day in the month of May more closely aligns both awareness efforts.
