FROM: Krishna Patel, Health Program Planner, Office of Policy & Planning
       Colleen Chawla, Deputy Director of Health and Director of Policy & Planning

RE: Fiscal Year 16/17 DPH Annual Report Draft

Please see attached the draft for the Fiscal Year 16/17 DPH Annual Report which will be discussed at the Health Commission’s Finance and Planning Committee meeting on November 7, 2017.

San Francisco Administrative Code requires City Departments to prepare an annual report containing a general summary of the department’s services, programs, and achievements of the prior year. As in past years, the FY 16/17 DPH Annual Report will provide internal and external audiences - the Health Commission, DPH staff, contractors, community partners, and San Francisco residents – with key information about DPH’s structure, priorities, and accomplishments from the previous fiscal year.

Incorporating the Health Commission’s feedback during the development of previous annual reports, the FY 16/17 Annual Report presents DPH information in a concise and streamlined way organized around the mission “Protecting and Promoting the Health of All San Franciscans.” As recommended by Commissioners in FY 15/16, a few stylistic have been maintained including the change in location of the Health Commission resolutions and the addition of a short message regarding DPH’s continued commitment to healthcare in the face of attempts to repeal the Affordable Care Act.
