### Other Significant Issues:

UpToDate is an evidence-based, physician-authored clinical decision support resource which clinicians trust to make the right point-of-care decisions. More than 6,500 world-renowned physician authors, editors, and peer reviewers use a rigorous editorial process to synthesize the most recent medical information into trusted, evidence-based recommendations that are proven to improve patient care and quality. Over 1.3 million clinicians in 187 countries and nearly 90% of major academic medical centers in the United States rely on UpToDate to provide the best care. More than 80 research studies confirm widespread usage of UpToDate and the association of its use with improved patient care and hospital performance — including reduced length of stay, fewer adverse complications, and lower mortality.

In order to preserve the integrity of the information provided. UpToDate states that UpToDate never accepts funding from pharmaceutical companies, medical device manufacturers, or other commercial entities.

Access to the service was previously procured through a Purchase Order process administered by the Office of Contract Administration. With this contract The Department of Health will now administer this transaction
