2015 MERP (Medication Error Reduction Program) Report

In compliance with state-mandated annual review requirement, Dr. David Woods presented for MEC's review and approval the 2015 MERP Annual Report and 2016 Plan, including a summary of new or significant elements in the areas of prescribing, prescription order communication, product labeling, compounding, dispensing, distribution, administration, education, monitoring and use. This comprehensive hospital plan creates and evaluates methods to optimally design safe and effective procedures and systems for each step of the pharmaceutical process that can contribute to errors in the administration of medications. Following review, MEC approved the 2015 Medication Error Reduction Program Annual Report and 2016 Medication Error Reduction Plan. *(Copy of the 2015 MERP Plan emailed to Commissioners; Executive Summary attached)*
