

SUMMARY OF CHANGES TO NEUROLOGY STANDARDIZED PROCEDURES

PREAMBLE: Changed from 40 cases to “Proctoring will include a minimum evaluation of five (5) chart reviews and direct observations, with at least one case representing each core protocols (core - neurology clinic, core - neurology inpatient service, discharge of inpatients, and furnishing medications/drug orders if applicable).”

Protocol #2 Core Acute/Urgent Care - Addition of this new protocol for inpatient acute care/urgent care standardized procedure following the template and individualized for the service

Protocol #5 eReferral changed to new name “eConsult” throughout this SP. Standardized the proctoring from “5%” of consults reviewed to “20 consults”.

Protocol #6 Discharge of Inpatients – added this as a new SP for the new role of acute care neurology NP/PA .
