Pharmacy Pain Consultation SP - approved by CIDP

Summary of changes:

- Format standardized and wording aligned so that it is uniform for all Pharmacy SPs these more clearly spell out functions of a PharmD and are consistent with regulations.
- Clarifying statement added to define Inpatient Pain Consultation and how the consults are requested
- Substance use disorder added to the history to align with the SFHN goal of consistent evaluation of opiate use
- Updated the documentation of the consultation to be completed in the progress notes in the electronic medical record
