RESEARCH AND CREATIVE ACTIVITIES

RESEARCH AND CREATIVE ACTIVITIES SUMMARY

HIV Dermatology

I continue to develop research questions and projects in the field of HIV dermatology both in the US and internationally.

1. HIV Dermatology - Developing algorithmic approach to diagnosis with World Health Organizations developing HIV treatment guidelines for **Kaposi Sarcoma**. I am focused on the area of translational research in US-concentration on immunosenescence in HIV infected patients with Kaposi sarcoma in the US. In developing countries, working on early detection programs for KS.
2. HIV Dermatology - WHO Kaposi sarcoma - epidemiology, clinical and translational research.
3. Pruritic papular eruption of HIV - India and East Africa - Clinical, epidemiology and basic science.
4. Skin cancer and HIV - basic science and epidemiology in United States.
5. Teledermatology and HIV - domestic & international projects.
